If legislation interfered to decrease income, the value of property was affected to the extent of diminution of income. This was taking property without compensation. It was confiscation. Practically, this bill denied to the various railroad companies the right of competition. It precluded shippers from reaping their rightful advantages of competition and caused to them and the railroad companies absolute loss. If a low rate for a longer distance meant a re-

If the rule were established by government limiting roads to charges that would pay fixed expenses only, it would be a practical confiscation on railroad capital for the public use without compensation. THE NEW SENATOR.

MR. WHITTHORNE, OF TENNESSEE.

Mr. Hoar Finds Fault with the Wording of the Credentials-Bonds of Brewers-Mr. Blair Speaks
on the Proposed Constitutional Amendment Prohibiting Liquor-Notes.

WASHINGTON, April 26 .- In the senate today, Mr. Harris presented the credentials of Washington C. Whitthorue, appointed by the governor of Tennessee to be United States senator from that state to fill the vacancy caused by the resignation of Senator Jackson. The credentials having been read, Mr. Whitthorne was escorted to the desk by Mr. Harris and the oath of office administered in due form by the president pro tempore of the sen-Mr. Whitthorne then took a seat on the democratic side of the chamber on the extreme right of the chair and received the con-

gratulations of many senators.

When the new senator had taken his seat, Mr. Hoar called attention to the form of the credentials. Not having desired, he said, to anything which might seem like an objection to the swearing in of Mr. Whitthorne, the form of credentials Mr. Hoar thought defective, in as much as the certificate stated that the appointment was for Senator Jackson's unexpired term. It should read:
"Until the next meeting of the legislature."
The point was of no great consequence at present, but in case of a close party division in the senate, the question, Mr. Hoar thought, might become one of great importance, and public attention ought to be directed to it in order that the difficulty might, as far as possi-

Mr. Harris remarked that Mr. Whitthorne's credentials, in using the word "term," made reference to the term as fixed by law. He thought this qualifying phrase covered the

The credentials were filed.

The credentials were filed.

Mr. Hoar reported from the committee on judiciary a bill extending the time for the completion of the records of the clerk of the commissioners of Alabama claims. Passed.

Mr. Morrill, from the committee on finance, reported with amendment the house bill relating to the bonds of brewers. The bill, as it came from the house, modifies section 3,336, of the Revised Statutes, so as to require new bonds to be filed by brewers, not on the first of May as heretofore, but whenever the collector of internal revenue shall require them to do so. The senate committee amended the bill so as to require in addition that, at least once in four years, the bonds shall, in any event, be renewed whether the collector requires it or not. After debate the senate amendment was agreed to, and the bill as amended passed.

amended passed.

A bill was reported by Mr. Harris, making an appropriation to complete the public building at Jackson, Tonn. On Mr. Harris's request, the bill at once passed.

Mr. VanWyck desired to take up the bill taxing railroad lands, but yielded to Mr.Blair, who, according to previous notice, then addressed the senate on his proposed constitutional amendment, prohibiting the manufacture or sale of alcoholic liquors as beverages. At the close of Mr. Blair's speech, the interstates commerce bill was taken up and Mr. At the close of Mr. Blair's speech, the interstates commerce bill was taken up and Mr. Van Wyck addressed the senate on it. Trough rates from the west Mr. Van Wyck said now nearly amounted to confiscation. Another rise would be prohibition. Last year be said that the neonle in some cartieve. Another rise would be prohibition. Last year he said that the people in some sections of Nebraska were compelled to burn corn for fuel and that it requires 150 bushels of corn to purohase one tonof hard coal. This condition did not apply to the entire state, yet, last winter in more than half her territory the people were again compelled to burn corn for fuel, because of the excessive rates of transportation. The basis of charges was "all that traffic will bear." We were in the midst of depression, yet all purses must be laid under contribution so that full dividends shall be declared by the railroad companies on watered stock and fraudulent bonds. Grain, beef and pork might be reduced one-half in price, yet there could be no abatement in freight charges. As to the commission feature of the bill, the people, Mr. Van Wyck said, were not demandpeople, Mr. Van Wyck said, were not demand-ing a commission, but corporations were be-coming earnest advocates of it. Railroad and telegraph rates west of the Missouri river were about four times greater than rates east of about four times greater than rates east of that river. For years capital had been organized, unscrupulous and rapacious, moving as Gould had moved according to his sworn testimony, and as Huntington, according to his own written history, had moved on state legislatures, courts and congress, unblushingly purchasing judges and legislators. But the crisis was coming. There was an irrepressible conservation of the property of the conservation of was coming. There was an irrepressible con-flict between right and wrong. Could a nation be made to believe that four billion of watered stocks and bonds were honest property, deserving protection from courts or legislatures; or that the three hundred millions claimed by Vanderbilt, and two hundred millions claimed by Gould, were honestly obtained? The owners of these fictions should accord decent treatment to the remainder of mankind from whom they expected to force dividends and interest. The senate committee failed at

the precise point where the monster evil should

be grasped by the law. If the industries were only required to pay fair dividends on the real cost of railroads, the nation would be

commissioner in charge of the department shall receive a salary of \$4,000, and he and two assistant commissioners, to be appointed by the president, shall constitute the commission of prosperous.

Mr. Stanford, of California, then addressed labor. The commission of labor shall have power to investigate the causes of all contro-versies and disputes between labor and capital, the senate on the bill. It purported, he said, to be an act to regulate commerce between the states. He had read it with a good deal of whether such controversies and disputes are care, but did not find anything in it that regelemitted for arbitration or not, and to report nlated commerce. Everything in it that regnlated commerce. Everything in it was as to
carrier only. "Commerce" had a well defined
meaning. It meant trade, barter,
interchange of commodities, matters with
which a carrier in the transaction
of his legitimate business had thereon to the president who shall transmit the reports to congress.

On all controversies or distrubances which may interfere with transit and commerce between states, it shall be the duty of the compission of labor to act as a board of arbitration for the peaceful settlement of such controversies whenever the conciliatory offices of said commission may be envoked by parties thereto, and in all controversies between laboring men and their employers, the consequences of which may threaten domestic violence, the interposition of such commission may be tendered by the president for the purpose of settling such controversies by arbitration, on application by the legislature of such state, or of the executive when the legislature cannot be convened. All questions submitted which a carrier in the transaction of his legitimate business had no concern whatever. He, therefore, thought the title of the bill ought to be changed to express its true meaning. Instead of being called a "bill to regulate commerce," it should be a "bill to regulate carriers." If it were a bill to regulate carriers." If it were a bill to regulate chippers and owners, whose material the carrier moved, the title would be more appropriate. He might be told, perhaps, that there were judicial decisions to the effect that the regulation of the carriers was a regulation of commerce, but when legislation was proposed it was entirely legitimate to discuss the question as to original matter and to determine it. state, or of the executive when the legislature cannot be convened. All questions submitted for arbitration shall be in writing and signed by the parties respectively, and the decision or award shall have such effect only as provided in the articles of submission. All awards shall be entered on record and a copy furnished to each of the parties, and one copy shall be transmitted to any court which may be authorized to take any action thereon. The proceedings of commission shall be public exproposed it was entirely legitimate to discuss the question as to original matter and to determine it upon principles which seemed to be involved. There was a great difference between the possession of power and its exercise. Of course the constitution plainly gave congress the right to regulate commerce between the states. But as a carrier had nothing to do with the control of the shipment of goods and merchandise or their ultimate disposal or destination, the regulation of him or determining the price he should receive for his services, could have no relation to determining commerce between the states. As to the national question, why should a price fixed for carrying freight across a non-physical line between the states be dif-

ferent from what was charged for the same services on either side of that line? Would it not be making our state lines more or less obstacles to free intercourse? Would it not be converting our state line into something very nearly akin to the frontier? What did our friends say who had been always so anxious to claim that we were of right one great family, with free business intercourse between ourselves, and what did our states rights, friends say to the general government interfering and controlling their local institutions?

Mr. Stanford said that admitting the power of congress it was pertinent to inquire

into the wisdom of this kind of legislation. If an investment in a railroad was so beneficial to the public, why should not the investors be permitted to reap the same full rewards of the wisdom of their investment, their industry and their management and direction thereof, as though the same capital, wisdom and industry had been employed in a business less important to the interests of the state, and in whose behalf the state could not, if solicited, exercise the right of eminent domain? In discussing this question of the right to regulate railroad fares and freights in a manner which would necessarily impair the earning capacity of these roads, we should not forget that investments were made by individuals. If railroads were so important to the public, surely these individual investors ought not to be discouraged by the apprehension that the for the purchase of works on Green and Bar-ren river Navigation company in Kentucky, presented an opportunity for the fight over the Monongahela Navigation company to break

out afresh.

Mr. Bayne, of Pennsylvania, offered an amendment authorizing the secretary of war to also negotiate for the purchase of the works of the Monongahela Navigation company. Despite stubborn opposition on the part of Mr. Hepburn, of Iowa, the Holman amendment was adopted, 90 to 45. No other change was made in the bill as far as progressed. gressed.
The house then adjourned.

GEORGIA'S PILOTAGE LAWS. The Supreme Court of the United States

Touching Them. WASHINGTON, April 26 .- The supreme court today rendered a decision in the case of Sprague, Soullee & Co. vs. Joseph J. Thompson. This was an action begun by defendant to recover \$93.16, claimed to be due him under the pilotage law of Georgia for pilotage on the pilotage law of Georgia for pilotage on account of the steamer Saxon, of which plaintiffs in error were owners. The suit was brought under a section of the code of Georgia which provides that the master or commander of vessels bearing toward any of the ports or harbors of the state, except coasters, who refuses to receive a pilot on board shall be liable to pay the first pilot who may have offered his services outside the bar. The Saxon was spoken by a pilot while she was bearing towards the port of Sayannah, and his services were offered If a low rate for a longer distance meant a reduction for a shorter, carriers must submit to less from the usual rates on short distance, or else abandon the business at competing points.

Mr. Plumb, from the appropriation committee, reported the post office appropriation bill with amendments. It was placed on the calendar, Mr. Plumb saying he would call it up Wednesday morning. The questions of detail involved in Camden's pending amendment to the inter-state commerce bill, as to long and short haul, were then taken up and discussed by Messrs. Camden, Harris, Platt, Brown, Wilson of Iowa, and Cullom. Brown said that under the provisions of Mr. Camden's proposed amendment it would be impossible for the railreads to transact the business of the country. If they attempt it, either they port of Savannah, and his services were offered outside of Tybee bar, but were refused. The superior court of Chatham county, gave judgment for the pilot. This judgment, the supermer court of the United States reverses, holding that that the section of the Georgia code under which this suit was brought contains such discriminations as are prohibited by tains such discriminations as are prohibited by ection 4237 of the revised statutes of the section 4237 of the revised statutes of the United States, which subjects coastwise vessels to the navigation laws of the United States, and exempts them from regulations established by the laws of any of the states, requiring vessels entering the port to take a pilot licensed by laws of such state.

A decision was also rendered in No. 231, United States, nativities in every variety. the railroads to transact the business of the country. If they attempt it, either they would be driven into bankruptcy or else the products of the west would be driven from the markets of the east, and of course, also from foreign markets. In other words, the railroads would have to put their local freights so low that they could not pay fixed expenses or put so high rates on through freights as to prohibit all shipments of produce for a longer distance than 500 or 600 miles. No railroad could continue running unless it could pay fixed expenses, and if limited to fixed expenses, it could pay no dividends, nor could it pay any interest on capital invested. As to watering stock, Mr. Brown utterly condemned it; but he could not see how railroads could

Washington, April 26.—In the house, Mr. Dunn, of Arkansas, asked leave to offer a resolution setting apart the 12th of May for the consideration of measures reported from the committee on railroads. In response to a question, Mr. Dunn stated that the measures which would probably be called up, would be a bill requiring the Northern Pacific to pay the cost of surveying its lands; a resolution providing for a general investigation of the accounts of the Pacific railroad, and a bill providing for a payment of debts of those roads.

Mr. Warren, of Ohio, inquired whether the order would include the Pacific railroad funding bill, and upon receiving an affirmative answer, objected to the present consideration of the resolution.

Mr. Dunn explained that the bill provided for the payment of \$41,000,000 of the debt before it came due under the existing law. It did not postpone, it anticipated the debt. He asked that the resolution be referred, but Mr. Cowles of North Carolina, objected and the resolution was not received.

Under the call of states, bills were introduced and referred as follows:

Mob of Masked Men Break into the House of a Transsse Man, Who Meets Them at the Door With a Cocked Revolver, and a Battle Ensues-Iwo of the Mob Killed.

NASHVILLE, Tenn., April 26,-[Special.]-Last night about twelve o'clock, a crowd of masked men came to Manchester, Tenn., and visited the house of D. W. Purdam. They broke the door open and commenced firing at him while he lay in bed. Pardam quickly took in the situation and returned the fire, shooting two and perhaps three, of his wouldbe murderers. The assailants fled, leaving one of their number, Mack Clark, lying on the floor shot through the breast and right arm. He will die. Clark was dressed in kuklux guise and was masked. He is now at the hotel under arrest. The cause of the attempted murder of Purdam was that he is accused of having furnished the revenue officers with information which led to the conviction of two men named Clay, who were selling wild cat liquor. Our

ENGLISH POLITICS. Lord Hartington Wishes to Form an Inde-

London, April 26.—Lord Hartington, in a speech in Lancashire this evening, said that no attractions would remove his objections to the Irish scheme. He did not wish to coalesce with the tories, but hoped, with assistance of Chamberlain, Trevelyan, Goschen, Sir Henry James Bright, Earl Selborne, Earl Derby and duke of Argyll, to create an independent party, or to induce the withdrawal of the

party, or to induce the windrawar or the measure. A portion of the audience made a demonstration against the speaker.

Mr. Bright, who was unable to attend the meeting called by Lord Hartington, sent a letter in which he said he thought that Hartington's conduct had been consistent and courage

ous.

It would be a calamity for the country if measures of the transcendent magnitude of Gladstone's should be accepted on the authority of any leader, however earnest. The present sad division in the liberal party has arisen through the introduction of these measures before the public mind was properly prepared for them.

THE LAKESHORE MATTER. Speculation About the Eight Objectionable Employes.

CHICAGO, April 26.-Since the Lake Shore switchmen's strike came to a sudden termination there has been a great deal of speculation as to the fate awaiting objectionable men. The company's officials say they maintained their position and made no agreement whatever as to the disposal of the eight men. Nor had they authorized any one to sign the paper exhibited by Stahl. The latter still insist that the eight men will be removed within sixty days and that an agreement to that effect was signed by some one authorized by the company to do so. He refuses to divulge the name of the person. As nearly as can be ascertained the facts are that the company made no agreement whatever, whereby the eight men's status was changed in the least.

promise that several business men would place such a tempting offers both in the way of posi-tion and a bonus before the eight men that their refusal of them would be next to impossible and that he, relying on that being done, signed the guaranty. The supposition at the time by the strikers was that Sheriff Hanchett time by the strikers was that Sheriff Hanchett was in a way, at least, acting for the company. The same paper says though the strikers may have been deceived in that respect it is not believed the discovery of the fact will reopen the trouble. Webster and Chaffee, two of the eight men, say no proposition to work elsewhere has been made to them and that they expect to continue working for the company. continue working for the company. Three of the city dailies print interviews with seven of the eight men, one being absent on sick leave, and they all agree in asserting that they have had no offers to leave the company and that it is their intention to remain in the railroad employ. Railway officials reiterate their orig-inal statements that the men are not to be discharged and are to remain as long as they

The Company Refuses to Take the Men Back in a Body.

New York, April 26.—The strike on Third Avenue surface railroad continues unchanged. The first car started out at 7:20 this morning. The first car started out at 7:20 this morning. There was a conference last night between a committee of the railroad company and one from the strikers, but the result was not satisfactory to either party. It is understood that the company refused to entertain the proposition of the men to return in a body. This is the only obstacle to settlement now, and no agreement could be reached. At noon sixty cars were running and all was quiet along th

cars were running and all was quiet along the line.

One of the strikers said today that they held the captured six drivers belonging to the Third Avenue railroad company. Father Dougherty said that he had found his intercession with the company of no avail, and regretted their action. A member of the committee said that at the conference yesterday, the company wanted the committee to acknowledge that they had made a mistake in the demand they had made for the discharge of the seven men. This the committee refused to do. The company wanted to choose the men to be taken back in lots of 50 or 100. To this the committee also demurred, and told them that all men must go back or none. Among them was a voluminous docu-ment which the recorder examined carefully and then adjourned the court and retired to his private chamber. The paper was an in-dictment found upon affidavits made by the Third Avenue railroad officials. It charges several persons with conspiracy, and while the names of the parties could not be ascer-tained, it is generally believed that it is against the committee of the Empire association, whose names were affixed to the order for the general tie-up of surface roads in this

WONDROUS WET.

RICHMOND, MANCHESTER, LYNCH-

The Anti Prohibitionists Carry Richmond by Nearly Six Thousand Majority, and Manchester and Lynchburg Roll Up Proportionately Large Majorities—Dr. Rawthorne.

RICHMOND, Va., April 26,—[Special.]—The election in this city today has been one of the most extraordinary on record. Notwithstand-ing the efforts of Dr. Hawthorne and other clerical orators, the majority against prohibition is 5,861 in a vote of nearly 13,000, of which the dry ticket received 3,260 vetes, and the wet ticket 8,491. This is about the vote of Richmond in her usual elections and the result is surprising. The remarkable fea-ture of the occasion is that the negroes

When the voting began this morning the colored troops marched up boldly to the polls in solid phalanx and put in the "wet" ticket. This was more notable in Jackson ward where the Rev. John Jasper holds supreme control.

and to the surprise of everybody planked up the "wet" ticket. At twelve o'olock it was rumored that the "wets" were far ahead. This gave rise to the wildest excitement. People of both sides ran to the nearest sources for in-formation, and soon found that the "drys"

by a very large majority.
"Where is Hawthorne," was the question that soon rung from ear to ear.
"He ain't here," was the response.

"He is gone back to Atlanta where he ought to be. He is no good here." This was mere badinage, however, for Dr. Hawthorne is re-

spected and his efforts are appreciated.

It is claimed that Dr. Hawthorne's denuuciation of Mr. Beirne, the editor, and his staff, and his replies to the card of the editor were the main causes of carrying the day. Dr. Hawthorne spoke here last evening, making the closing speech of the campaign, and returned to Atlanta after the speech.

WHAT BROUGHT IT ABOUT. The lesson of today's election is two fold. In the first place Richmond had the example of Atlanta staring her in the face and it is a rebuke by a powerful vote against sumptuary laws; in the next place it is a warning to the democratic legislature that such legislation will not be tolerated by the people of the old dominion.

It is conceded here tonight that the victory of today over what in the general estimation of the public had reached the folly of a antical craze, is the grandest that has happened since 1857 when Henry A. Wise killed "know nothingism." Instead of taking a gradual course, or at-tempting to regulate the traffic in liquors, the prohibition enthusiasts attempted to force that on the city, which in the estimation of its people was not to the best interest of the city. A big failure is the result, and a thousand persons have asked tonight "How in the world did Atlanta do it?"

Manchester and Lynchburg Go Wet.

MANCHESTER, Va., April 26 .- [Special.]-The local option election here results in a heavy victory for the wet ticket. The poll was one of the largest ever polled here, but the result is scarcely surprising, as it has never been regarded seriously that the prohibitionists could ever carry this place, though they have claimed it. In today's election, the wets received 974 votes and the drys 348 votes, giving the

wet ticket a majority of 626.

LYNCHBURG THE SAME.

LYNCHBURG, Va., April 25.—[Special.]—The electian here was quietly conducted, and was greatly one sided throughout the day. The anti-prohibitionists win by 1,188 majority.

Rev. J. B. Hawthorne reached the city at ten o'clock last night, fresh from the Virginia campaigns. "It's wet-a regular flood," said a Constitu-"It's wet—a regular nood," said a CONSTITUTION reporter to the great apostle of prohibition.

"I expected it," he answered. "The prohibitionists did not get a fair chance to work up their campaign. The wave is going on however, and two years hence Virginia will be as clear of barrooms as Georgia is. Prohibition will yet triumph."

will yet triumph."
'You have not annihilated Mr. Bierne, yet?" "Not have not annihilated Mr. Bierne, yet?"
"Net yet. Mr. Bierne made a furious attack on me three or four days before I got to Bichmond. It was in an editorial in the Richmond State. When I spoke Tuesday night in Richmond I said the anti-prohibitionists quotes scripture; even the Richmond State quotes scripture and so did the devil quote construct Christ and the answer. I would scripture to Christ, and the answer I would make to the Richmond State and its reporters is just what Christ said to the devil—get thee behind me Satan. That was the only provo-cation he had for his attack on me. A number of gentle-men who heard my speech called on Mr. Bierne and and informed him that I had said nothing that would warrant his writing such a letter to me. He said in reply that some one had told him I had called him a liar, and he said also he was very sorry he had written the letter. He did not, however, have the manli-

ness to make a public retraction."

The reporter showed Dr. Hawthorne the following telegram:

"Was much money used?"

"I was told Sinday evening that the antiprohibitionists were offering \$75 apiece for votes."

The doctor is now safe at home and although his party met defeat he is confident of victory in Virginia two year hence.

Mr. Lewis Rumph, of Houston county, but made you are leader this carried and the sent and the sent was the sent and the sent has made money already this spring. As an experiment, he planted less than an acre of ground in radishes, to be shipped to eastern markets. In less than ninety days from the day he planted his seed, he had shipped his crop and realized a profit of nearly three hundred dollars, and now has the same land planted in cabbage plants.

R. H. Jackson, of Heard county, a few years ago was in the mercantile business in Franklin and found claims against him of about \$25,000, or more than he had. He clo about \$25,000, or more than he had. He closed out his business and went to the farm and be-gan raising heavy crops and pushing things. He has paid up all debts and cleared the books of all old scores and now owns one of the ffnest river plantations on the Chattahoochee, a few miles from Franklin. Since he has cleared up his debts and stocked his farm and built nice dwellings, he has resumed his pas-toral duties in his section of the county. As a preacher he is as good as an agriculturalist. He is one of the leading men of Heard county. In the Redland church neighborhood of

Lowndes county there are numerous citizens who illustrate the healthfulness of this south Georgia climate of ours. All of the this south deorgia chimate of ours. All of the following aged citizens live within one mile and a half of the church: Moses Westbery, age 82; Jonathan Studstill, 82; J. F. Scruggs, 77; Mrs. Scruggs, 70; M. M. Caswell, 78; Mead Adams, 78; W. B. Philips, 84. A remarkable fact about this is that these are nearly all the people living in that immediate settlement, it being really sparcely settled, the children and great children and great greatly children of grand children and great-grand children these people having got off, most of them in Lowndes, however. When these old people die out the Redland neighborhood will be quite

depopulated, unless others move in.

The interest in the better grade of stock still increases in Polk county. Since Mr. Wm.
E. Hurst get an installment of fine Jerseys a E. Hurst got an installment of fine Jerseys a while ago several other purchases have been made with the same view to rearing better breeds. Messrs. T. M. Pace and R. G. Herbert, who have seeded down in grass and clover, and now have a spendid pasture of some fifty acres, have recently purchased from Virginia a pair of fine young Shorthorns. The bull was weighed the other day at the age of 249 days and "tipped the beam" at 49s-pounds. This shows the surprisingly rapid growth of this breed which has never yet had a fair test in this climate. Messrs. C. W. Smith and J. E. Houseal bough the other day from Mr. Howell, of Floyd, for the purpose of rearing Jerseys, several fine thoroughbreds.

THE DAILY NEWS.

Reported by the Mail and the Weekly Press of the State.

A little colored boy nine years old, son o-Jacksou Bryant, was drowned one day last week in Potato creek, near the Miller bridge, in Upson county. He was fishing and his feet slipped from under him and he was drowned before he could be rescued. Brunswick is boasting of its full grown

oses.

Mr. Perry J. Moore, formerly of Brooks county, killed himself at his home near Green ville, Florida, on Sunday last, by cutting his throat with a razor. No cause is assigned for the recharge.

A negro man by the name of Mason was drowned in the Withlacoochee river last week near Ousley. He are rafting some timber and by a misstep fell into the river and sank out of sight to rise no more alive before he could be rescued by those who were near by. He was working for Mr. Shannon.

It is reported in Valdosta that a young man living in Brooks county by the name of Paramore had committed suicide by cutting his

throat with a razor. The report said that un-requieted love was the cause of the rash act. Near Friendship, the residence of Cy. W. Ross, was destroyed by fire about 1 o'clock Ross, was destroyed by fire about 1 o'clock Wednesday night. The fire origin ited in the cock room, where there had been no fire for tome time, and the house was in a full blaze when the occupants were awakened. Mr. Ross and his wife escaped with only one suit of wearing apparel each. The loss is probably \$2 000, on which there was no insurance.

Thursday night the fancing on the place of Jackson Parker, three miles west of Americus, was fired and fifty namels were hurned before

was fired, and fifty papels were burned before it could be extinguished. While all the family were out at the burning fence, the thief went to the smokehouse, dug a tunnel some ten or fifteen feet long, got into the house and stole some meat. He probably would have taken all but exhausted so much time in digging that the owner's return home must have run him off.

in our city.

At the Baptist church last night, Dr. W. D. Powell, missionary in Mexico, preached. Afterwards a collection nn mexico, preached. Atterwards a collection was taken up in behalf of the Mexican mission. In a few minutes \$638 were raised about one-half of which was contributed by the delegates and the balance by the consequence. Mr. Stanton of Atlanta added congregation. Mr. Stanton of Atlanta, added

The convention consisted of a fine body of men and made a very favorable impression on our people. The delegates expressed them-selves highly pleased with Rome and her hospitable people. Several of them declared that Rome is the prettiest city in Georgia. Dr. Headden was diligent in looking after the comfort of the delegates. His general

manners indeared him to all.

THE CHURCHES WERE FULL. How the Easter Festival Was Celebrated in

Rome. ROME, Ga., April 26.—[Special.]—The weather yesterday was bright and beautiful, and every church in Rome and its suburbs was filled to repletion. Delegates to the Baptist convention filled all the pulpits in the Presby-terian, Methodist and Baptist churches. The music in the different churches was unsually mass in the afternoon, there were mission mass meetings and children's meetings, which were largely attended. At night, the churches were again crowded. It is estimated that eight thousand persons attended the several territors.

eight thousand persons attended the soveral services.

In the Catholic and Episcopal churches, Easter services were held.

The Episcopal church was beautifully decorated. The music was superb. The church was crowded to its utmost capacity, and the sermon of the rector, Rev. W. D. Powers, was littured to with varie attention, and is now. listened to with rapt attention, and is pro-nounced by all who heard it an eloquent and masterly effort. Mr. Powers assumed charge of this parish last August, and his ministry thus far has been singularly successful. He has just finished a series of lectures on the Babylonian captivity, which evinced deep and thorough research and broad culture. Mr Powers is popular not only among his parish-oners, but with our entire community. The church is in a very prosperous condition. Its debts have been paid, its current expenses met and its charities have been many.

THE SHOWER OF GRACE Which Has Blessed the People of Barnes-

ville. BARNESVILLE, Ga., April 26.-[Special.] During the past three weeks a glorious revival of religion has been in progress at the Baptist church here. Rev. George T. Stansberry, of Perry, preached twice a day, presented in the most pleasing and convincing style the true spirit of the gospel, causing many sinne to see their condition and confess Christ. Mr. Stansberry having to return on Wednesday last to his oharge, Rev. R. T. Goodrum, of Thomaston, since the has been preaching with great effect. The meetings have heen engaged in and enjoyed by all denominations. Thus far there have been thirty-eight acquisitions to the church—thirty-two by experi-ence and six by letter. For the past three or four years the church has been growing rapidly in numbers and in spiritual strength.

Religion in Walton. MONROE, Ga., April 26.—[Special].—The colored people have been having a great revival in the Baptist church. Yesterday six-

teen were baptized in the presence of a crowd of 2,000 people.

All the Sunday schools between Monroe and Gainesville will join in a grand picnic at Mul-berry next Friday. Rov. Mr. Marshall, of Gainesville, is the orator of the day. A fine time is anticipated.

SPEAKING of Dr. H. H. Tucker's presence

in Albany, the News says that he is cheerful and full of genial talk, nor does his old time humor forsake him. He can be seen at almost any hour of the day sitting under the shade trees in front of the Artesian house, enjoying social chat with his friends. The News goes on to say : Indeed, Dr. Tucker's eminently social disposition

friends. The News goes on to say:

Indeed, Dr. Tucker's eminently social disposition is not new to us. It recalls a reminiscence of our college life. In 1863, during the war, Dr. Tucker was president of some confederate salt works and occasionally would get an opportunity to run home and see his family at Penfield. But it was well known among the college boys that as soon as the family welcome subsided he hasiened with all speed, and it was some walk too, to the studio of Dr. N. M. Crawford to pay his sespects to that distinguished divine, between whom and himself there existed a strong and abding friendship. One day in particular is recalled. The dinner bell had rung. We had gathered at the table. But Dr. Crawford had not made his advent. Peals of laughter came ringing in from the studio, showing how oblivious the two D. D.s were to the dinner monitor. Bill Crawford, as son of the doctor, looking up into the writer's face and addressing him said: "Just listen to those old croules, gofing on like two school boys." Mrs. Crawford, the model of propriety, wanted to laugh herself, but she suppressed all disposition that way, and turned to Bill, and in half a rebuking tone said: "Why, William, ain't you ashamed to speak of your father and Dr. Tucker in such a light manner?" Dr. W. W. Bacon carried Dr. Tucker out to the Blue Springs day before yesterday. The doctor was refreshed by the pleasant ride, and was charmed with the wonderful spring and its beautiful surroundings. During Dr. Tucker's absence from his editorial chair the loder, has reproduced in its editorial columns articles written by him years ago. Thus, though yet imprisoned by the slow processes of recuperation, the grand old man is enabled, like Regu'us of old, to "fight as he never fought before."

LINDERMAN TALKS.

Progress of the Work on the Savannah Dublin and Western.
Mr. A. B. Linderman, of Philadelphia, who
is interested in the building of the Savannah, Dublin and Western railroad, arrived in At-

room at the Kimball, reclining upon his bed.
In response to an inquiry for information concerning his road, Mr. Linderman said:

"Thirty miles of the road are graded, be-tween Dublin and Macon. Today, a force of four hundred men went to work on the Dub-

"The contract has been let for the grading of forfy miles on the Savannah end, to be com-pleted within sixty days. A large force will begin work on May 1."
"Have yon purchased engines and cars?"

"Yes, sometime ago. Two Baldwin ongines, one for Macon and one for Savannah, will arrive in a few days. They will be used in constructing the road. All the passenger cars have been purchased, and part of the freight

'Are any more contracts to be let for grad-

ing??
"About seventy miles remain to be contracted for. Very foolishly, I advertised for bids for the work. If I had let the contracts without advertising, the work would now be in progress. Nevertheless, I am confident that the entire line, from Macon to Savanuah, will be

COMPLETED BY THE FIRST OF MAY. It is the intention to begin work on the line from Dublin to Americus as soon as the former

from Dublin to Americus as soon as the former is completed."
"How do the people regard your enterprise?"
"They are wild with enthusiasm. I have met with nothing but encouragement, except at Savannah. At that place an attempt was made to fleece me. I went there asking no money, but anxious to secure terminal facilities upon reasonable terms. The price asked was exercitant. It is my purpose now to let the matter rest until the grading is completed. On the Savannah end of the line, the work will be commenced eleven miles out of the city."

city."
"Do you anticipate trouble at Macon on the

"Do you anticipate trouble at Macon on the score of terminal facilities?

"No, none at all. I shall perfect arrangements with Mr. E. C. Machen. The Savannah, Dublin and Western railroad will use the track of the Covington and Macon to enter the city. I shall pay half the cost of constructing the bridge across the Oemulgee."

"What is the business outlook for the road?"
"It could not be better. The road penetrates a country hitherto not reached by any other line. It is a fine timber and naval stores region, and also a fine agricultural region. In one instance a gentleman has pledged himself to ship to Savannah by the Savannah, Dublin and Western forty thousand bales of cotton per annum."

EXECUTING THE BONDS. "What is the purpose of your visit to At-

inta?"
"I am here to have the bonds of the road executed. If I were well enough, I would endeaver to do so today. The trustees for the bondholders are State Treasurer R. U. Hardeman, Captain E. P. Howell, and Mr. Howard E. W. Palmer. If it is possible, I shall see these gentlemen tomorrow and close up my business here."

Mr. Linderman declared that the equipments

Mr. Linderman deciared that the equipments of his road would be of the very best order. He was expecting a gentleman from New York to meet him in Atlanta, to make a proposition to supply the road with steel rails. These will be of the standard weight. The track will be of the standard gauge, all the engines and cars having been ordered with that view. Relative to depot facilities. Mr. Linderman said that at the outset the road would be proaided with substantial depots of ample capacity.

"In a word," he continued, "it is my inten-"In a word," he continued, "it is my intention that the road shall be second to none in the south. It will not be a difficult matter to construct it, nor will it cost nearly so much as the older roads cost. Railroad building these days is comparatively cheap."

Speaking of the new roads now being constructed in Georgia, Mr. Linderman said that hey would necessitate a reconstruction of the railroad map of the state.

"The older lines," he declared, "will find it necessary to construct branches and to make other arrangements to retain a fair share of the patronago of the public."

ond, has returned from a trip in the interest of his line. He is quite sick.

During the sessions of the state Sunday chool convention, which meets in Macon May 12, the East Tennessee, Virginia and Georgia railroad will sell round trip tickets at four cents per mile. General Manager Cecil Gabbett, of the Western railroad, of Alabama, has ordered his private car, which is to convey Mr. Jefferson Davis to Montgomery, to be handsomely decorated.

Mr. John Wood, ticket agent of the East-Teanessee, Virginia and Georgia railroad, at Rome, spent Sunday in Alanta. He declared that at least five hundred people would come down from Reme on May 1st, to altend the unveiling of the Hill monument. Mr. C. N. Kight, division passenger agent of

Mr. C. N. Kight, division passenger agent of the East Tennessee, Virginia and Georgia railroad, left yesterday for Savannah. He will complete the arrangements for transporting the Governor's Herse Guard to that city upon the occasion of the Chatham Artillery's centennial celebration.

A committee, composed of Dr. Y. H. Morgan and Messrs. Jacob Mans and A. J. Thompson, of Cochran, arrived in Atlanta yesterday, to consult with Mr. A. B. Linderman, of the Savannah, Dublin and Western railroad. The committee petitioned Mr. Linderman to have the road pass through Cochran. He agreed that it should be done.

Mr. W. L. Thomas, superintendent of motive power at the shops of the East Tennessee, Virginia and Georgia railroad, has just completed a new passenger engine. It is one of the finest in the south. It has all the latest improvements. The engineer that runs it will be a happy man. It will make its first trip when the Governor's Horse Guard leaves for Savannan.

Common porus plasters—which you can get for a song at any of the Cheap John druggists—you have merely thrown away your money, for one Benson's Capcine Plaster is worth them all. The reason is this: Benson's is the only porous plaster in the market that is honestly and skilfully made, and scientifically medicated. Others are no more than nominal imitations of Benson's. They are cheap because they possess none of the ingredients which render Benson's valuable. The latter are prompt to act, pleasant to wear, and cure in a few hours aliments which others will not even relieve. The public are especially warned against so-called "Capsicin," "Capsicum," "Capcin," or "Capsicine" plasters, as worthless articles intended to deceive. Ask for Benson's and look for the "Three Seals" trademark and the word "Capcine" cut in the center.

ATLANTA, GA., APRIL 27, 1886.

Indications for Atlanta and Georgia, taken at 1 o'clock a.
m: Fair weather; stationary

South Atlantic BLUE. temperature. South Atlantic States: Light local showers; nearly stationery temperature; winds generally southerly.

East Gulf States: local rains, followed by Fair weather; slight changes in temperature; winds generally southerly.

FROM reports received daily from over Georgia, it is probable that the crowd that will be in Atlanta next Saturday to see Mr. Davis and be present at the ceremonies of the unveiling of the Hill monument, will be the largest ever gathered in Atlanta. Thousands of old soldiers, from all parts of the state, will be here. All the railroads have offered reduced rates, and will have all they can do to accommodate the crowds that they will bring.

THE prohibition wave which has been capering wildly in Georgia and other southern states seems to have spent all its energies in its attack on Atlanta. One after another of the Georgia counties, instead of taking Atlanta's action as an example, have since gone the other way. The same wave yesterday struck Virginia, but in the most dilapidated condition and from indications there is hardly enough of it left for it to get out of that state. It met with a series of Waterloos, Richmond going wet by nearly six thousand majority in a poll of less than thirteen thousand. Manchester and Lynchburg likewise defeated prohibition by proportionately large majorities.

A Great Day.

Throughout the south the confederate me morial day was observed, yesterday, with all the solemn pomp suited to the occasion. The memories of the war have lost their

bitter sting, and there is now neither sec tional nor partisan significance in the tributes paid to the heroic dead of both armies morial day, and on decoration day. Both sides now feel that when they honor their departed comrades they are simply commemorating American valor and patriotism, and no discordant voice is raised to ask "Under which flag?"

The men who wore the gray and the blue will do well to perpetuate this beautiful custom, and their children must not let it die. Instead of dividing this people in any sense it will every year bind them more closely together. History teaches us that the wounds inflicted by civil wars are quickly healed. A nation cannot forget the injuries inflicted by a foreign foe, but men of the same race speedily forgive and forget the temporary anger and violence of their brethren and countrymen. Men of the ne blood in England fought each other fiercely in the "Wars of the Roses," but the modern Englishman does not know or are whether his ancestors followed the

White Rose or the Red Rose. Yesterday's celebration excited a sympa thetic interest among our late foemen. This ntiment will grow stronger with the coming years; and, even in this day and genern, the genuine patriotism and heroism of the men who fought for self-government, and those who fought for the union, will re ceive the full measure of recognition and applause from every true American.

The Veterans in Line.

The Horse Guard, with its nodding mes and its gorgeous trappings, made a sve display vesterday in the memorial occasion. The Knights Templar were almost as handsome and quite as well disciplined. The foot-soldiers were superb in their glittering uniforms and arms. But the ex-confederate veterans, marching on by twos, without equipments or color, and with the old swing of the road instead of the gingerly step of the parade, caught the eye and held the heart of the crowd. The simple badges on their breasts proclaimed the old soldier, and the empty sleeve or the

crutch here and there emphasized the tact. The line was a long one, and many an eye grew dim in watching it as it passed slowly by. But it was simply the corporal's squad of the great host of good, gray vet-erans that will take up the line of march next Saturday to honor the memory of the great Georgian and testify their love for the first and last leader of the cause in which they fought !

The Governorship.

The Savannah News, in an editorial on 'Gubernatorial Candidates," has this to

While we do not think there is any occasion for While we do not think there is any occasion for excitement over the governorship yet awhile, it is just as well for the people to begin to think seriously of the merits and qualifications of the different gentlemen who can be persuaded to serve them, in order that they may be ready to act wisely when the time for action comes. There is no reason why the court house cliques in the different counties should select the men who are to nominate the governor. Let these who know little pate the governor. Let those who know little about courthouse politics take a hand in the gov-ernor-making business.

The suggestion is worthy of serious consideration by the people. Whether they choose to instruct their delegates for certain candidates or not, they should certainly inerest themselves in the selection of men who will represent their interest and the interests of the whole state. The nominating convention should be made a thoroughly representative one in every particular, not only that the will of the people may be carried out, but that the various candidates, whose names go before the convention, may feel that their defeat, if they are defeated, or their success, is they are successful, has been brought about only by legitimate means.

The people themselves believe in fair play, and if every candidate before the convention has fair play, nobody will have a right to complain. The rivalry between those who aspire to the high honor of governing Georgia should be friendly. There is no need, in a contest between democrats, of any display of bitterness, no need of sharp antagonism, and no room for detract

The office of governor of Georgia is not a speculative one. There are no fees or perquisites attached to the place, and the salary is niggardly in the extreme. It is not an of fice which confers great power and authority. The attraction about it is that it is an or to any man, even the greatest, to be called to the executive chair of Georgia. But even this honor is not great enough to warrant an unseemly scramble between democratic candidates. This is a matter in which the people should have their way.

The President Slandered.

According to the Washington correspond ent of the Cincinnati Enquirer, the president has this to say of the newspapers that have been commenting on the rumor that he is shortly to marry Miss Folsom:

"These reports," he resumed, "are a shame and an outrage upon all the privacies and decencies o life, and the press should find something better t do than to be pitching into an unprotected girl in this brutal way. Why do you not accord to your president the privileges you do to the laborer earn ing fifty cents a day? Now, why don't you do something different from all the rest and say a word in behalf of the sacred immunity of pure womanhood from being made the common talk of a continent, and write something on the other ide of the question?

It seems to us impossible that President Cleveland could have made any such remark. As the statement is put, there is not a word of truth in it, and the president has too much good sense, too much dignity and too much honesty to utter such drivil. It is not true that the reports of his mar Miss Folsom are a shame and an outrage on the decencies of life. Every paper in the land that has printed the report has had nothing but cordial and kindly allusions to the president. Not a newspaper in the land has "pitched into an unprotected girl in a brutal way." If there is anything indecent and brutal in marriage, then the newspaper

comments have been brutal and indecent. There is another reason why we do not believe the president had the bad taste to make the remark attributed to him. He well knows that he is not a private citizen, and he knows that the people of this coung try have a pardonable and perfectly legitimate interest in his marriage.

But the concluding sentence of the statement shows, beyond all question, that it is the invention of an ignorant correspondent It is stated that Mr. Cleveland exclaimed "Now, why don't you do something differ ent from all the rest and say a word in be half of the sacred immunity of pure womanbood from being made the common talk of a continent?" Surely the president never

uttered such nonsense as this! Commercial Travellers Abroad.

The house committee on commerce have favorably reported a bill to relieve foreign drummers of state or local license, tax or penalty. It is conceded by the committee that a state has the right to tax its own citizens at pleasure, but it takes the broad ground that no state has the right to lay a duty upon importation from one state into another under the name of a license, tax or penalty, although the very state does put the tax equally upon residents and nonesidents. This meets the case fairly and squarely, and if congress passes the bill reorted by the committee on commerce the entire system of petty local taxes upon commercial travellers will disappear.

"Such laws," says the committee, "although not discriminating in favor of residents and non-residents, are in conflict with the constitutional power of congress to regulate commerce between the states." Judicial decisions in support of this position are cited, and the report states explicitly that the object of the bill is to prevent any state, territory or the District of Columbia from requiring a license from those who are exclurively agents in inter-state commercial transactions. The report concludes as follows: "The contracts for sales made by commercial travelers are not consummated in the state when the order is solicited, but the final assent thereto is given by the merchant or principal who receives and executes the order of his correspondent. This trade is now carried on without objection by postal communication and samples by mail, and it is not perceived why the same thing exein any way objectionable."

"Sheriff Tom Anderson In Sunday's Constitution in alluding the first battalion that left Georgia for Virginia, we wrote that it was commanded by bluff" Tom Hardeman. The intelligent compositor, with that kindness which comprehends all things, wrote it "Sheriff Ton" Anderson." We merely desire to put on record that all accredited history is with us in the statement that Colonel Tom Hardeman did command the battalion; further than this we are not willing to go in com-mitting ourselves against even the casual assertion of the intelligent compositor.

It was a famous battalion and worthy of its bluff commander. In its ranks as privates were such men as Sidney Lanier, the poet, Attorney-General Anderson, Congressman Jim Blount, Judge Joel Branham and hundreds of others less distinguished perhaps, but not less gallant, and Georgia sent no better troops to the war than the battalion that first went beyond her borders to illustrate her on Virginia's historic fields.

THE new Mississippi local option law is a good one for the prohibition side of the question. The vote on the license question be taken by counties, upon the petition of onetenth of the qualified voters, and the election is to be appointed for a date when no other issue is before the people, and at least two months from any other election. This provision will help to separate the question from party politics. If a majority vote against the sale, no liquor can be sold within the county for two years. If the election goes the other way, an applicant for a license must file a petition signed by at least twenty-five real estate owners of the town. This is to lie over for thirty days, and if, in the meantime, counter petition is presented signed by a majority of the legal voters in the place, license can not be granted. There are many little railway towns in the state a good deal disturbed by drunkenness which cannot show on the tax list as many as twenty-five owners of real estate. The new law will close the saloons in such towns absolutely.

Some dead men are not allowed to rest. Aaron Burr is one of them. Not a month passes without the publication of reminiscences, attacks upon and defenses of this remarkable man. GENERAL GORDON IN ATLANTA. He Arrives from New York, and Will Leave Again Today.

General John B. Gordon reached Atlanta yester-day by the Air-Line train. He was met at the depot by a large number of his friends, and made his way to the Kimball house, where he registered for dinner. He was then waited on by a committee headed by Major Camp-bell Wallace, Mr. M. C. Kiser, Mr. S. M. Inman, Mr. John C. Whitner, Mr. Aaron Haas, Dr. Spald ing and others, who tendered him a serenade at the Kimball last night. Major Wallace stated for the committee that General Gordon's friends and fellow citizens desired to express their gratification at his success, with his railroad enterprise, and at his winding up his business in New York and his permanent return to his home in Georgia, recalling the occasion when he, having completed arrangements under which the Georgia Pacific was built

they had tendered him a banquet.

General Gordon expressed himself as deeply sensible of the kindness shown by his friends, and his gratification at being once more at home with his people, but regretted that he was forced to decline the compliment they tendered him.

He spent the afternoon in shaking hands with

his friends and receiving their congratulations.

At six o'clock he took the train for his suburban home in Edgewood. It became rumored on the streets in the lafternoon that he would speak at night at the Kimbail house, and by eight o'clock he arcade and lobbies of the hotel were crowded and there seemed to be general disappointment that there was no speech.

He willfleaveltoday at one o'clock for Montgome ry, where he will be received tonight by delega-tions of state and city officials and by one of his old regiments. He will meet Mr. Davis in Montgomry, tomorrow and will deliver an oration at the laying of the corner-stone of the confederate mon-ment. His reception at Montgomery will be strik ng and enthusiastic to a degree. General Gordon is in excellent health and spirits. and his erect and soldierly form has lost n

PROMINENT JOURNALISTS.

Staff Correspondents of Two Leading Journals and Their Mission.

Colonel Frank A. Burr, staff corresponder the New York World, and Mr. Henry L. Stoddard, who represents the Philadelphia Pressin the same capacity, arrived in the city yesterday on their way to Montgomery, where they will be present at the exercises attendant on the visit of Mr Davis. Theywere in the city yesterday and left for Montgomery last night. Both of these gentle-men are well known in the journalistic world and men are well known in the joinnaistic world and their mission south at present is an important one.

Colonel Burr has visited the south frequently before and has many staunch friends here. He was for many years the special staff correspondent of the Philadelphia Times, and now fills one of the most responsible positions on the World. Colonel Burr shares with George Alfred Townsend the distinction of being the most famous of American correspondents. He is well known throughout the country, and is intimately acquainted with many of the most prominent men of both political parties. He has written many atticles from the south for his papers, and has always dealt with its people in the fairest and most liberal manner, his writings having been particularly free from that malice and prejudice which has prompted so many northern corre pondents in writing of the south. His admirable work, the "Life of General Grant," which was published during the past whiter, has met with wonderful success, and will pay him handsomely.

His Last Visit to Columbia Recalled by His Approaching Visit to Atlanta.

COLUMBIA, S. C., April 26.—[Special.]—The approaching visit to Atlanta of Ex-President Jefferson Davis excites no little interest among Columbians, many of

JEFFERSON DAVIS

interest among Columbians, many of whom will go over to Atlanta to see him and shake him by the hand. In the latter part of the year 1863 President Davis made a visit to Columbia, remaining here one day as the guest of General James Chesnut. About noon on that day an immense throng of men, women and children, besides several thousand soldiers who happened to be stationed here at that time, assembled around General Chestnut's house, in Plain street, (the residence now occupied by Mr. Joseph Daniel Pope, the prominent lawyer) and such cheering as greeted the confederate chieftain was never heard before. President Davis made a short but stirring speech, which elecited unbounced enthusiasm. At the close of the address a reception was held, and President Davis was kept busy for several hours shaking the hands of his visitors. Your correspondent was one thus honored, and he has never forgotten the cordial, honest grip he received.

President Davis towered above all the great men surrounding him, and assumed, the proportions of an intellectual, a moral and a military glant—a hero whose very presence illumed the surrounding sand invested the occasion with momentous significance. Then did the chief of the confederacy appear to be one of the greatest men, one of the noblest heroes this country ever produced; and now, in the light of twenty-two years of history, does this same Jefferson Davis present a still more lofty example of moral grandeur, intellectual greatness and sublime heroism.

A WILD MAN LIKE AN APE.

Nothing Gives Him Greater Agony and Terror Than the Sight of a Woman.

CRUGER DAM, N. J., April 26 .- Two sons of Archibald Tyson, a farmer, returned from a hunt last evening leading by a rope a frightful spectacle of humanity in the shape of a wild man. Both of the Tyson boys are full grown and tell the follow ing story of the capture: About noon, when they were climbing the Ramapo Mountain on the north side, they heard a shrill voice howling as if in agony. Approaching the spot where the voice came from they encountered what appeared to be a huge

ape.
One of the boys, Shileman, raised his gun to fire at the subject but was stopped by his brother. They then advanced closer and discovered that the object was a man. Scarcely a whole article of clothing covered his body. His hair and beard were long, matted and partly gray. They spoke to him and he jumped toward them in a threatening manmer. Both dropped their guns and grappled him. After a terrible struggle he was overpowered and bound. He uttered a few unintelligible words and quietly allowed them to do as they pleased with him.

him.

After searching in vain for a hut or a cave they led him home, where he was exhibited to the neighbors. He appeared to understand the German language, and whenever a woman approached would run and try to escape. It is thought that he must have escaped from some insane asylum and wandered wild in the woods.

When a piece of raw meat was offered him he grabbed it and ate it ravenously. Mr. Tyson locked him up in a barn and is waiting for some relative to claim him.

POISONING THE WATER.

General Gossip and Editorial Short Stops

Caught on the Run.

The use of snuff as chewing tobacco is almost nnknown in South Carolina, at least above Columbia. It is extensively consumed in Georgia and in North Carolina, but even the largest merchants in the upper part of South Carolina do not sell a pack. age of snuff in a year. Very little snuff is sold in any part of the palmetto state. In North Carolina any part of the patients state. In Soria caronna Scotch spuff is the favorite variety, but Georgia and Alabama prefer the purest Maccaboy. In all sections of the south the sale of spuff for 'dipping' purposes is annually increasing.

The limestone for the new capitol building comes from the Bedford quarries in Indiana. The deposit is about twenty miles long and ten miles wide. The first quarry was opened after the war, and in the course of fifteen years this Bedford stone has become one of the great products of Indiana, It is carried in all directions, underselling and displacing home material. It is estimated that ten thousand car loads of it will be shipped this year and yet there is nothing particularly excellent to commend it, except its softness, which enables the Indiana people to mine it at a low cost per foot; the railroad companies do not oppress the they are therefore in a position to outbid their ri vals in other states. And they generally do it.

The red snapper that is seen in every fish stand in the south, rivalling in number, size and cheapness, the catfish that are plentiful on all inland waters, are not caught in nets, as many people doubtless think they must be. They are caught with hook and line. Small sail vessels, carrying about six men, go out in the Gulf of Mexico, and in the course of a week they return with a load of snappers. There are millions of them in the gulf, no fish in its waters exceeding them in number Their presence is ascertained by sounding lines, which have baited hoods attached, and if the fish are feeding near the lines they are sure to bite, and the first victims are apt to be the beginning of a boat's load. The red snapper is not at all chary or wary. He takes the baited hook without delay or suspicion, and that is why he is so-nur

The statesmen are also admirers of the national game, and the league games in Washington com mand their presence, even when exciting quesions are before the national body that meets in the capitol. Senator Gorman, who caught behind the bat when he was a young man, and was almost a professional, retains his interest in the game, and s very sure to exchange the cloak room grand stand before "game" is called. He is either an enthusiastic looker-on or a severe critic during the entire game. Senator Jackson, of Tennessee— Judge Jackson now-was captain and first base man of his college nine, and a deformed finger at tests to this day his love for the game. He is Mr. Gordon's chum on the grand stand. Representa tive O'Neil, of St. Louis, is the legal adviser of his me club, and an arbitrator in baseball disputes. He has, too, a good record in the box, and few excel him as a slugger. Representative Frank Law ler, of Chicago, is another baseball enthusiast, and a regular attendant of the league games in Wash ington. But he has no record, and it is suspected he shows up often to in order to retain the confidence of a district that is greatly given to outdoor

A recent correspondent says the house of repreentatives, as seen from the galleries, presents a scene of picturesque baldness, and then he pro ceeds to describe the individual features of tha general picture. Of the Georgia members only Mr. Crisp is mentioned in connection with this aspect of the house. "He has," says the correspondent, "what might be termed a good-natured bald head-one that would attract attention from the galleries, but would not suggest the idea of its owner being aged, which is by no mears the case It is a youthful, comfortable, satisfactory bald head—one that is pleasant to look at." Mr. Barnes "fills the chair the fullest," and he and Baker and Hiscock, of New York, are the three heaviest men in the house. The two smallest men are Belmont and Merriman, of New York.

Now that the boycott has become a favorite remedy for the ills that affect mankind, we are treated to some very peculiar ones. The clergymen of Cleveland propose to boycott Sunday newspapers; and when Mr. Warder started to erect a fine residence in Washington he found that no bricklayers would accept employment at his hands. Mr. Warder proposes to build a house that will cost \$100,000. He wants the house and Washington people want him to build it; but he displeased the Knights of Labor when he was getting rich by manufacturing agricultural implements at Springfield, Ohio, and they boycotted him. That boycott has never been raised, and no workman in the district will work

The best discussed boycott was, however, that of Mrs. Esther Gray, who keeps a bake-shop in one of the down-town streets of New York. She is described as an undersized, shy, commonplace, unheroic looking woman, but is quiet, quick and bus ess like. Six years ago she was a young widow with her present bake-shop on her hands. Gray, who is a tinker and plumber, married her, but as the two branches of business could not well be blend. ed, each of the contracting parties continued in their respective callings-she in Hidson street, and he in Bleecker street, not far away. They have two children, and are altogether comfortable and happy.

Mrs. Gray employed, and still employs, five bakers. She paid them the usual prices, and she did not stop to inquire whether they were union men or not. She did not know whether they were or not, until a committee of the Bakers' Union inormed her they were not, and that they must either join the union or be discharged. This made her mad. In her own words, it was "tole'ble cheeky.' When she told her men about it, the head baker said he was a member of the union of states, and that was a good enough union for him. This joke ended the negotiations for a surrender before battle, and Mrs. Gray's little shop was forthwith boycotted.

But she was and is a woman, and she did not pay starvation wages, and public sentiment went out to ber, and she became prosperous and famous-so prosperous that she could not fill the orders she received, and so famous that she longed for the quiet days that she enjoyed before fame was thrust upon her. "I can't bear," she said one day, "to sitr folks up and be talked about." But the boycott was in orce, and rich and fashionable people in and out of town flocked to her humble place of business. Millionaires sent her large orders for charitable institutions, and people drove to her place in carriages to pay five collars for two ginger snaps. Such people refused to accept any change. Others left money for Mrs. Gray's faithful workmen. While the boycott lasted she received over \$100 a day for bread that she was directed to send to organized charities. People bought pies and sugar cakes by the dozens, and distributed them at the door to newsboys and other children that gathered for the daily pienie.

The boycotters soon saw they had made a mistake; that the boycott would make Mrs. Gray defi-ant instead of compliant, rich instead of poor, and that the sooner they ceased to defy public sentiment the better for them. So the boycott was qui'etly withdrawn, and the little woman, who during a fortnight was the great city's heroine, remai in the field unscared and unhurt.

THE SLEEPING HEROES.

THE FLOWERS OF SPRING BEDECK THE GRAVES

In Which the Confederate Dead are at Rest-Memo-rial Day in Atlanta-A Beautiful Procession— The Address by Captain Ellis-A Notable Occasion—A Large Attendance.

Yesterday was Memorial Day and the oecasien was observed in Atlanta with a degree of interest never surpassed here.

Many business houses and all the public

offices were closed, for a part of the day at least, and men, women and children joined in the ceremonies.

Just befose three o'clock the confederate veterans met at the county courthouse and were supplied with badges. At three, a pro-cession was formed headed by Randall's band, which played Montrose quickstep as the veterans marched to a point on Marietta street, opposite the capitol. Colonel W. H. Hulsey, acting as one of the assistant marshals of the day, commanded the ex-confederates in their march to the place of rendezvous. He rode at the head of the column, pointing out the way and otherwise managing the march of the old soldiers who, after twenty odd years of absence from parade ground, were by no means out of practice in keeping step to the music. First in the column came Dr. J. S. Todd and Recorder Anderson. Next came Ordinary Calhonn and Adjutant General John Stephens. The column was about three hundred strong. Down the line a little distance rode two horsemen with

was about three hundred strong. Down the line a little distance rode two horsemen with crutches dangling by their sides. One was Comptroller General Wright, president and commander of the Veterans association, and the other was Colonel Ben Davis, secretary of the association.

MARCH OF THE VETERANS.

The veterans proceeded along Pryor to Alabama, along Alabama to Broad, along Broad to Marietts, and thence to the capitol. As they marched along they excited the admiration of all who saw them. There was one notable thing about the column. From the head to the last man there was not a youthful figure. The youngest man had passed more than "half way home," while many of the marchers were bending under the weight of years.

The procession marched to its position along side the capitol and halted. The mounted marshals galloped here and there arranging matters. Colonel W. H. Hulsey sitting his horse beautifully a few yards from the column gave the command:

The old soldiers, as one man, wheeled and

"Parade rest!" The veterans, who had long since put away their muskets, broke into a shout of amuse-ment, and some of them brought their um-brellas and walking sticks down with a crash. In a few moments the Governor's Horse Guard came around the corner of Broad and Marietta, from the rendezvous on Loyd street. The spectacle was one of the most inspiring ever seen as part of a parade in Atlanta. There were fifty horsemen in beautiful uniform, and instead of the sabre dangling from the side each trooper wore around his shoulders like a seach barea and lovely. ce a sash a large and lovely

WREATH OF WHITE FLOWERS

WREATH OF WHITE FLOWERS and evergreens. Captain Milledge, mounted on a milk-white horse and bearing several of these beautiful floral tributes, seemed to be in a very bower of flowers. He commanded the company admirably, and very soon had the cavalry in line.

Fellowing closely behind the Horse Guard, and mounted and uniformed, with their white plumes floating, came the Knights Templar.

Scarcely had the knights come round the corner from South Broad before the music of a second brass band was heard, and the Gate econd brass band was heard, and the Gate City Guard, with steady tread and coldierly bearing, turned into Marietta street from NorthBroad. The company was under command of Captain Sneed. Following closely came the Means high school cadets, under command of Captain T. R. Edwards. The boys marched with precision, and attracted much attention and much favorable comment.

Captain R. S. Barry, chief marshal, was in general charge of the procession, and did the work admirably. He was ably assisted by the following gentlemen: Captain C. S. Arnall, in charge of the first division of cavalry; Colonel W. H. Hulsey, and Mr. E. S. Morris in charge of the infantry; Colonel Wright and Colonel Davis in command of the veterans, and Colonel L. P.
Thomas in command of the portion of the procession made up of carriages.

The procession was one of the most beautiful ever seen in Atlanta.

At the cemetery an immense crowd of gentlemen, ladies and children had assembled. Never was there a larger crowd within the cemetery gates. The rain that had fallen about noon had laid the dust and the clouds overhead sheltered the crowd from the sun. The trees were green with the new foilage and the cemetery was as healtful as a flavor.

and the cemetery was as beautiful as a flower garden could possibly be.

The deepest interest was manifested by the The deepest interest was manifested by the spectators as the procession entered the gates. The band in front was playing a funeral dirge "Rest in Peace," and the second band was playing "The Diadem Funeral March." The military, the veterans and the civilians were soon gathered about the monument. The spectacle was very imposing as the great crowd collected about the tall granite shaft creeted in memory of "Our Confederate Dead."

Captain John Milledge acted as master of ceremonies, and introduced Rev. J. W. Lee, who offered a fervent prayer as follows:

THE PRAYER.

We thank thee our heaveuly Father for the age in which we live, for the many elements which enter into it, friendly to human progress, and human liberty, for the many impulses, movements, aspirations, in the atmosphere about us, which indicate for all brave souls and all struggling souls, the incoming of a still better day. We bless Thee for the lives of the great men, who through the long, weary years of the past, have wrought for us the civilization which surrounds us, from which we are furuished with the elements of growth, of viaor and of hope. For every victory that has been won in the past, whether on the field of battle, in the laboratory or on the forum, we thank thee. May not the heritage left us by our fathers be squandered, but may their loyalty to truth, their consecration to the right, lead us to such lines of action, to such high endeavor as help on the coming of perpetual summer for the human race. We thank Thee for the part contributed by the soldlers of our own beloved south toward making our time and outlook possible.

Bless the members of the families of these soldiers who were disabled by the war.

Bless the noble women all over the south, who labor with tongue and pen and hand to keep alive the memories of our heroic dead. May their graves be kept green through all the years to come. May no flower ever bloom on southern soil that shall be too sweet or too fragrant to offer as a tribute to the memory of our southern soldiers.

Bless our common country. May war never more be known among us. May lines between sections be oblite sted, and may our people every where be animate if by the spirit of brotherhood. This we ask for T y name's sake. Amen.

Captain John Milledge was on the programme for a reading of "The Bivouac of the Dead," but on account of the threatening weather he decided not to read it. As it could not be read and as nearly everybody would like to see it, it is given below.

THE BIVOUAC OF THE DEAD. The muffiled drum's sad roll has beat
The soldjers last tattoo;
No more on life's parade shall meet
That braye and fallen few.
Cn Fame's eternal camping ground
Their silent tents are spread,
And glory guards, with solemn round,
The bivouse of the dead.

No rumor of the foe's advance
Now swells upon the wind;
No troubled thought at midnight-hour
Of loved ones left behind;
No vision of the morrow's strife
The warrior's dream alarms,
No braying horn or screaming fite
At dawn shall call to arms.

Their shivered swords are red with rust,
Their plumed heads are bowed,
Their haughty banner, trailed in dust,
Is now their martial shroud:
And plenteous funeral tears have washed
The red stains from each brow,
And the proud forms, by battle gashed,
Are free from anguish now.

The neighing troops, the flashing blade,
The bugle's stirring blast,
The charge, the dreadful cannonade,
The din and shout are past;
Nor war's wild note, nor glory's peal
Shall thrill with flerce delight
Those breasts that never more may feel
The rapture of the fight.

Like the fierce northern hurrican That sweeps his great plateau,
Flushed with the triumph yet to gain,
Come down the serried fee;
Who heard the thunder of the fray
Break o'er the field beneath,
Knew well the watch word of that day
Was victory or death.

Full many a norther's breath has swept O'er Augostura's plain,
And long the pitying sky has wept
Above its moldered slain. Above its moidered stath.
The raven's scream, or eaglet's Hight,
Or shepherd's pensive lay,
Alone now wake each solemn height
That frowned o'er that dread fray,

Sons of the dark and bloody ground,
Ye must not slumber there,
Where stranger steps and tongues resoundAlong the heedless air;
Your own proud land's heroic soil
Shall be your fitter grave;
She claims from war its richest spoil—
The ashes of her brave,

Thus 'neath their parent turf they rest,
Far from the gory field,
Borne to a Spartan mother's breast,
On many a bloody shield.
The sunshine of their native sky
Smiles sadly on them here,
And kindred eyes and hearts watch by
The hero's sepulchre.

Rest on, embalmed and sainted dead,
Dear as the blood ye gave!
No implous footsteps here shall tread
The herbage of your grave;
Nor shall your glory be forgot
While fame her record keeps,
Or Honor points the hallowed spot
Where valor proudly sleeps.

You marble minstrel's voiceless stone
In deathless song shall tell,
When many a vanished year hath flown,
The story how ye fell;
Nor wreck, nor change, nor winter's blight,
Nor time's remorseless doom
Can dim one ray of holy light
That gilds your glorious tomb.

THE ORATION.

Captain Milledge introduced Captain Ellis, the orator of the occasion, who spoke as fol-

Ladies of the Memorial association, ladies and gentlemen:

In all ages and in all countries brave men have been honored and admired, their praises have been honored and admired, their praises have been sung in the sweetest strains of poetry and their achievements have been told in story and woven intoromance. In every age and in every clime brave men and fair women have worshiped at the shrine of valor, and the praises of conquering heroes have ever been sounded in wild acclaim.

When nation has contended with nation in deadly strife each has lauded the devotion of its own soldiers, their deeds of valor have been handed down from sire to son and have been written and recorded in that nation's history. Caesar had his Rome to erect triumphal arches to receive him and his victorious army. Hannibal had his Carthage to laud and extol. his wonderful achievements. Macedonia raved over the glories of her Alexander. France still boasts of the wonderful Ambeleon. England rejoices in the fame and history of her Wellington. America draws henor from the exploits of Washington and his patriot band. The United States boasts of the accomplishments of Grant and his splendid army.

But where is the nation, which having groaned in interprecine strife, has handed down to glory and renown the virtues and the cornage of a defeated faction? No matter how just the cause. No matter how grand the courage. No matter how noble the sacrifice, defeat has always drawn upon the defeated the inexorable end of condemuation in a governmental view. ows: Ladies of the Memorial association, ladies and

the defeated the inexorable end of condemnation in a governmental view.

Where is the nation to exult in the splendid bravery of Robert E. Lee, of Albert Sidney Johnston, of Stonewall Jackson and their devoted followers? Where is the nation to pension the battle scarred veterans who survive them? Where the governmental aid to keep and preserve the final resting places of those who fell in the thickest of the fight and in the very shock of battle? What has been done in the very shock of battle? What has been done in this line has come alone from the loving hearts and willing hands of kindred and of friends.

In 1851 war's rude alarm was sounded throughout this fair southern land. The cry weat forth that cur section and our country were in peril. Right cr wrong, expedient or inexpedient, for weal or wee, the call to country and to duty rang out over the hills and through the valleys. In city and in town the busy hum of trade was drowned in the welling cry, "To arms," in hamlet and in country the echo was caught up and re-echoed until the plowshare ceased to turn the sod, and was turned into the sword. Brave men paused in peaceful pursuits and turned from quiet homes and happy families to the hardships of the tented field. Wives and children, fame and fortune, cherished hopes and well haid plans were left behind, and faces saddened with the anguish of parting, were turned to duty and to war. How many fathers turned their backs upon back and cherished children, the same turned to duty and to war. How many fathers turned their backs upon back and cherished children the same turned away from the tear-stained faces of devoted mothers? How many of these brave fellows never did return? In the chaos of the bartie, when shrieking shell and deadly bullet sped upon their missions of destruction, these men who made these sacrifices were their targets. In this very cemetery there reposes the dust of such an one over whose remains is reared a costly shaft, erected by the hand of a loving wife who gave evidence that, in the slaughter of his body, her heart was dead. The simple words, "How many fond hopes lie buried here?" tell the story in dreadful pathos. This monument and that inscription could with great propriety be placed above the grave of each of these fallen warriors. Somebody's father, somebody's son, somebony's husband, and oh! so many fond hopes lie buried here. We come today to commemorate their trutues and to strew garlands over their unmarked graves.

To do this solemn duty, to

of it, but it should neverbe true that in mahy places the graves of our own dead are marked only by the brush and the wildwood. Will the strange if in times to come, when the last confederage survivor shall have passed sway, that coming generations, will inquire whose graves are these?" Are not all the herces buried in the bright spots and ware not those in the jungle worthy to be forgotten." Shall this ever be true."

When the brave and noble William Wallace had gathered his little hand, of patriots in the monatain fastnesses of Scotland to resist the tyranny of Edward many of the women followed for protection and to cheer the men to battle. As the shall want Scots were about to march forth to meet the invader and to storm Dumatation castle, a Scotlish mother held up her baby to Wallace and crist duit. The people who had gathered to do honor to the memory of the sleeping braves then returned to their homes, and Memorial Day was over.

A PLEASANT INCIDENT.

After the Horse Guard assembled at their place of rendezvous, Captain Milledge introduced to the corresponding to th

Captain Fuller is one of the foremost officials of the Estey organ company, and it was through him that this well known musical establishment presented to the Horse Guard last year the four handsome and beautifully mounted bugles which the company now have. He made a short talk to the company, after which three cheers were proposed to him, which was responded to in the heartiest manner.

Macon, April 26.—[Special.]—Cold indeed must be the heart and callous the soul that does not feel a responsive thrill when the name of our martyred dead is mentioned, and

the glorious cause of their martyrdom re-Today has been one of days that Macon people have ever held sacred, and never was it more

faithfully observed than today. A slight sprinkle of rain about one o'clock refreshed the budding vegetation, and laid some of the dust.

At 4 p. m. a great throng of ladies and young people wended their way toward the beautiful Rose Hill cemetery, laden with the treasures of wood and field and garden. Odorous offerings, they were, sending up a sweet incense to the souls ef our departed dead, who still live in the memory of those cherishing hearts.

IRLS OF WESLEYAN were out in a body to assist in doing the honors of the day. With Professor Newman, as leader, to them was assigned the rendition of a number of beautiful songs, which constituted one of the most beautiful features of the

programme. Under command of Colonel C. M. Wiley, the Under command of Colonel C. M. Wiley, the three companies of the Second Georgia battalion, the Macon Volunteers, commanded by Captain Carnes; the Southern Cadets, under Captain Sims, and the Floyd Rifles, under Captain Hardeman, formed on Second street, opposite Triangular block. In position the Volunteers marched on the right, the Cadets in the center and the Rifles on the left. All the companies were out in full force and made a magnificent display, with their handsome the companies were out in full force and made a magnificent display, with their handsome uniforms and tall shakes, and rifles glittering in the rays of the declining sun.

THE LINE OF MARCH was from Second to Mulberry, up Mulberry to Spring, up Spring to Walnut and thence to the cemetery.

Colonel Wiley's staff consisted of Adjutant Hugguerin, Surgeon, Gwinner, Commissary

Hueguenin, Surgeon Gwinner, Commissary Wilson, Paymaster Wrigley and Sergoant-Major Etheridge. Never did Macon's military show up better,

and one could not repress a feeling of pride at the thought that these are the lineal descend-ants of that chivalrous race who sleep beneath wood violets on many a southern field.

Arrived at the cemetery the command to stack arms was followed by a very impressive prayer by Rev. A. W. Clisby. Then the sweet songs of Macon's fairest daughters came welling up from many a pure young throat, and went echoing and re-echoing among the wooded dells and silent graves of the beautiful city of the dead.

music of the fife and drum, and the sweet strains of "Dixie" floated away on the balmy air of even.

On Second street the companies halted, and went through with a general dress parade. Each company is commanded by a thor oughly efficient officer, and the whole under the direction of one of the finest commanders in the state, Colonel C. M. Wiley, whose fine physique and gallant bearing make him the thorough soldier that he is.

The ladies returned to their homes, delighted with the success of their labors, and the elgant manner in which the programme was carried out.

If, as we so fondly believe, the souls of the dead are enabled to look down on the doings of the living, surely there was joy in heaven today, as those who passed beyond the reach of mortal ken so many years ago, witnessed the loving manner in which the tender recollections of their deeds of heroism are perpetuated in the hearts of this generation that has taken their place in the land which they loved with a love that was stronger than the fear of death.

Savannah, Ga., April 26—[Special.]—Memorial day was renearly observed today,

and the temeteries were througed with people. The caldiers hot at Laurel Grove was elaborately decented. The Guards lot had a tent with all the equipments of seldiers lying about, testefully bestrewed with the flowers, in the center of which were the lines of fame's eternal camping ground, etc." Some graves of the gallant warriors who shed their blood on hetly contested fields, were very beautifully and appropriately dressed. The confederate monument was tastefully dressed. There was no address.

Memorial Day in Augusta. Aventure, Ga., April 26.— [Special.]—Memorial day was celebrated today in good style by the local military and a general suspension of business after dinner. The usual dressing of the soldiers graves was observed, speeches delivered and salutes fired.

At the annual precion of the Confederate

livered and salutes fired.

At the annual meeting of the Confederate Eurvivore' association today resolutions on the death of Father Ryan were adopted. A letter was read from ex-President Davis regretting his inability to come to Augusta at present. The invitation of Fulton county veterans was accepted to attend the unveiling of the Ben Hill monument.

Besolutions highly enlogizing General Hancock were unanimously passed and a large addition to the Hancock fund made.

ALFRED STAFFORD DEAD.

The East Tennessee Train Hand who Walked off the Rhodes Street Trestle Dies. Alfred Stafford, the East Tennessee train hand who walked off the Rhodes street trestle two weeks ago, is dead.

He died yesterday morning at the Ivy street

hospital.
Stafford was a young man of twenty-four years. He was a thorough railroad man and had been on the East Tennessee road over a year. Two weeks ago last Sunday night Stafford's train reached Atlanta and stopped near the Rhodes street trestle. Stafford, with his conductor, slept in the cab, and some time during the night the engine

Stafford was asleep and knew nothing of the change. The next morning, just two weeks ago yesterday, his conductor awoke him about day dawn, and instructed him to go out and examine the seat on the car. Stafford arose, and dressing, picked up his lantern and walked out the back door of the cab. There was not enough of daylight to show him where he was, and the lantern did not give a sufficient light. Stafford jumped from the cab step, but instead of lighting upon the ground, as he expected, he went dashing down through sixty feet of space and struck the branch with terrible force. Soon after the conductor became alarmed at his absence, and after serching for him a while happened to see the

the conductor became alarmed at his absence, and after serching for him a while happened to see the lantern at the bottom of the trestle. This excited his fears, and hurriedly seeking the ground under the trestle the conductor found his train hand in an insensible condition. The alarm was given, and Stafford was placed on a litter and carried to the lvy street hospital, where every possible attention was given him. He lingered through the two weeks—some times conscious and some times unconscious. One day better and the next day worse. On Sunday he seemed much better, but yesterday morning began to sink rapidly, and died about eleven o'clock. His father was with him when he died. The remains will be taken to Dalton, his old home, today, for interment.

WOODSON'S WAYS.

More Complaints Against the Commercial Traveler Who Was Arrested.

S. P. Woodson, the commercial traveler who vas arrested Saturday night at the instance of J. M. Miller, the opera stationer, is still in the city.
Woodson appears to have been a sight draft
drawer professionally. During the day yesterday
two or three more complaints were lodged at police

two or three more complaints were lodged at police headquarters against Woodson, and if he is permitted to settle the case of Mr. Miller's, he will have several more to settle before he can secure his freedom. Messrs. Holbrook & Osborn, the Peachtree grocers, are who showed up yesterday. Woodson's family lives in Atlanta and traded with the Peachtree grocers. Some four months ago Woodson entered the store and stated that he wanted to settle his account. The account amounted to \$35, and when it had been footed up, Woodson said: "I have a letter from my uncle in Alabama, authorizing me to draw on him for money. Now, I'll just give you a sight draft for seventy-five dollars and you can give me the difference." Woodson exhibited a letter authorizing him to draw for a hundred dollars. The Peachtree grocer had always

and without a thought of the draft being returned
Mr. Osborn took the paper, squared up the account and gave Woodson the difference. The
draft was placed in the bank and in due time
came back protested. The firm then began searching for Woodson, but failed to find him until two
weeks ago. He then promised to settle the matter
up, but failed to do so. The firm will swear out a
warrant for Woodson.

HE TRIED TO CUT HER THROAT. 300 Henry Davis Whips His Wife and Then At-tempts to Kill Her.

Henry Davis will stand up in police court this morning and tell Judge Anderson why he whipped his wife and broke up his furniture. Davis was arrested yesterday morning by Patrolmen Cochran and Terry. Davis was arrested yesterday morning by Patrolmen Cochran and Terry.

On Saturday night Davis went to his home on Decatur street and after driving his wife away from the house, broke up every piece of furniture into splinters and then chopped up the mat tresses and clothing. His wife sought a policeman immediately after being driven from the house, but, as she returned with one, Davis ran away. Early yesterday morning he returned to his house, and after whipping his wife most unmercially pulled out his knife and attempted to cut her throat. The woman screamed loudly for help, and two or three men came in just in time to prevent Davis from drawing the knife across the woman's threat. When the men entered the house Davis attempted to cut fone of them, but was knocked down. He was then detained until policemen cerild be called in. Davis resisted the officers but was safely landed in the city prison.

GIROFLE--GIROFLA.

An Enjoyable Performance of the Opera Last Evening.
The Bijou company last night presented at

DeGive's opera house Lecceq's delightful musical little opera "Girofle-Girofla." The title role of the twin sisters was taken by Miss Adelaide Ranlittle opera "Girofle-Girofla." The title role of the twin sisters was taken by Miss Adelaide Randall, the gifted young American prima donna, who is, deservedly a great favorite in the south. Miss Randail has a fresh, clear, resonant soprano of large compass and excellent timbre, and she uses it to the best advantage. In the famous drinking song, in the second act, where she and Pedro become tipsy, her singing and acting were capital, and the scene called forth a vigor ous encore, to which Miss Randall was obliged to respond. In the concerted numbers the full nichness and power of her voice cap out, and the lovely trio in the second act was also encored. As "Aurore" and "Paquita" Misses Trion Chester and Clara Randall were very acceptable, while Miss May Leyton, who took the part of "Pedoo" for the first time last night, filled the part well. Harry F. Dixie as "Don Bolero," the weak old father, was an excellent comedian, and introduced some funny local "gags." Mr-Flint, as "Mourzourk," was herce enough to have scared almost anyone into fits, and both his singing and acting were applauded to the echo. He uttered one note so deep and low that the cornetist, down in the orchestra, looked under the stage to find it. Mr. Alfred Wilkie, the tenor, sang "high C" once and looked very loverlike. The orchestral part of the programme was up to the mark, and the performance gave very general satisfuction. The house was one of the largest of the season, and comprised many fashionables.

THE CHICAGO MARKET. Features of the Speculative Movement in Grain and Produce.

Special to The Constitution.

CHICAGO, April 26—Lethargy prevailed in the wheat tpit today. No one seemed interested in wheat. Crops in nearly all parts of the country were said to be looking splendidly, and statements were made that the visible supply would show a less decrease than estimated Saturday. This was sufficient to open June ½c lower at 51½c, which proved to be the top figures for the day, Outside orders were remarkably small. Gradually prices sagged off to 80½c, reacted to 81½c, fell off and closed on the regular board at 80 9-16c. In the afternoon the tone was a shade firmer.

ternoon the tone was a shade firmer.

The general tendency in the other grains had a lowering effect, and corn and oats ruled a shade lower.

June pork opened easy at \$9.05, eased off 21/20
and then picked up to \$9.10, but eased off again to
medium figures.

THE LUNATICS.—In the yard at the Fulton county jail, there are seven lunatics. They are all perfectly harmless, and pass their time cooling around in the yard. The unknown dead man, who was found in the dense grove near May's utility works on the eastern limit of the city, Sunday afternoon, proves to have been Harrison Mother-

Early yesterday morning, a large crowd ongregated at the spot where the dead body was found. At first no one could identify the dead man. His face was terribly swollen, and was mashed so flat that his most intimate To MEET TODAY.—The state council of Catholic Kuights will meet at 10 o'clock this merning at the hall on Alabama street. There will be about a dozen delegates present. To night the Atlanta branch will tender the delegates a banquet at Concordia hall. FRIEND WOULD HARDLY HAVE KNOWN HIM at first glance. remarked:

"I can't exactly recognize that face, but them's the breeches Harrison Mothershed used to wear, and I believe that—"

"That's just who it is," broke in some one, "I know the coat, and that's Harrison's face."

Harrison Mothershed was a negro well known in Atlanta, and in less than a minute after the two men identified him by his clothing, a dozen came forward and stated most positively that it was Mothershed. Then, as the news of the identification went abroad and it became rumored that

HARRISON MOTHERSHED WAS DEAD, every new-comer looked at the swollen, flat-

trial Sunday, was landed there safely. He he no effort to escape, and seemed glad that was to be tried, saying that he felt confit of being accquitted. It is thought that case will be called today. HARRISON MOTHERSHED WAS DEAD, every new-comer looked at the swollen, flattened face and quickly identified it. Long before Coroner Haynes and the jury of inquest reached the place it was safely established and generally believed that the dead man was Harrison Mothershed.

Immediately after the jury of inquest reached the body an organization was perfected. Dr. DELEGATES ELECTED—At a meeting of the agregation of St. Luke's cathedral, held sterday morning, delegates to the diocesan nvention were elected. They are: Messrs. D. Harrison, F. M. Dr. Boring, the county physician, was present, and after examining the body carefully, stated that death had evidently been produced by a hard blow on the head. This aroused the interest of the jury and the spectators. A murder surrounded with mystery is always interesting, and those present began wondering.

who had killed the Man.

Dr. Boring, at the request of the jury, made a more thorough examination, and then stated that the skull had been crushed in with a heavy instrument. The jury then began its work, but at first no one could tell anything, except that the dead man was Harrison Mothershed. During the session, however, some one stated that Mothershed had been at Tom Pride's house on Thursday night. No one could rehouse on Thursday night. No one could remember having seen Mothershed after that time, and the coroner sent for Pride. Pride lives near the Air-Line shop, but was not at home. FOUND SEVERAL WITNESSES who stated under oath that Mothershed was at Pride's home Thursday night, and that while he was there he slapped one of Pride's children over. This angered Pride, and he and Mothershed had a bitter quarrel. Pride picked up an ax and, threatening to kill Mothershed, drove him from the house. Mothershed reached the street and turning about abused Pride at a terrible rate and dared him to come out. Pride declined to accept the challenge and Mothershed left. An hour or two after this trouble, which attracted a great deal of attentions. trouble, which attracted a great deal of atten-tion, Pride went to a store and, stating that Mothershed had slapped one of his children over, said:
"But I'll get even with him. See if I don't.

No negro can hit one of my children and

This threat was proven before the jury, but just as a verdict was being formed a witness came forward and stated that Mothershed was alive on Friday morning and was drunk. The witness said that he had talked to Mothershed and that he went into the thicket to meet some one with whom he was going to gamble. This was as far as the dead man could be traced. The jury in rendering a verdict charged Mothershed's death to Pride and rec-ommended his arrest. Mothershed was about thirty-four years of

age, and was a copper-colored negro. He worked for the city once at police headquarters, and was considered an honest, sober negro. He was also known as Harrison Johnson. His remains were buried in Westview.

"When did you see him last?"

"That was the last time. He went out into the street and abused me and dared me out, but I didn't want any fuss and didn't

go."
Did you tell some one you'd get even with "No, sir, never."

"Well, who killed him?"
"I don't know. I only know that I didn't.
I am a member of the church and wouldn't

hurt any one."
"How long have you known Mothershed?"

"About six months."

"Why did he come to your house,"

"To see a girl that works for my wife."

The detectives who are working the case have acquired considerable evidence against the old man, and unless he can show to a cer-tainty that he was at home when Mothershed was killed he will stand a close shave to escape the gallows.

FIVE HUNDRED CHILDREN. Mrs. Charles Benton to Play Cinderella

Here. "Yes, sir," said the pretty little lady, "I want five bundred children."
"Limping Lazarus! for what? To send to

the poor house?"
"No, no. To play Cinderella. That is what I want with them. You newspaper boys are "Certainly. Think you can scare up that

They Broke the Window.—Burglars nade a desperate effort to enter a house on James street, near Fersyth street, about time o'clock last night. The occulents of the house were away from home, and but for the good ears of a neighbor the burglars would have succeeded. The burglars were negroes and there were two of them. About nine o'clock they approached the house, and putting a key in the front door attempted to unlock it. The key did not turn easily, and in trying to make it throw the bolt they broke it off. After finding that they could not open the door the negro took a stick and smashed in an entire window. The noise made by the falling glass attracted the attention of some one who lived next door who came out. This frightened the burglars away. The telephone was used to notify police head. many here?

"When will the opera come off?

"The last week in May, at the opera house.
It will be a lovely sight. It has been produced by me'ln nearly every city of any importance in the south, and has never failed to please and delight. I will tell you more about it port time."

FIRST GEORGIF TROOPS. The Commands That First Reached Virginia

From Georgia.

Captain H. H. Colquitt, with the badge of the Fulton County Confederate Veterans' association pinned upon his breast, was in a reminiscent mood yesterday.

the Fulton county consederate veterans association pinned upon his breast, was in a reminiscent mood yesterday.

"The first troops that reached Virginia from Georgia," he said, "were the City Light Guards, of Columbus, Captain Peyton H. Colquitt; the Macon Volunteers, of Macon, Captain Robert A. Smith, the Floyd Rifles, of Macon, Captain Thomas Hardeman, Jr., and the Spalding Grays, of Griffin, Captain Doyall. They left Macon April 20, 1361; When they arrived in Portsmouth, Va., in the same month, they found that the federals had evacebated the place the night previous, leaving the navy yard nothing but smoking ruins. The four companies were formed into the Second Georgia battalion, with Thomas Hardeman, Jr., as major."

"Yes, and I well remember every incident of the journey to Virginia."

"How did the people receive you?"

"The journey through Georgia, South Carolina, North Carolina and Virginia, was an ovation. Flowers were given us at every station. At Augusta muskets, as well as flowers, were given us. I have a vivid remembrance of the trouble I had to keep my musket in a perpendicular position."

"What became of the commanders jof the compenser"

"Captain Peyton H. Colquitt afterwards became

my musketin a perpendicular position."

"""

"What became of the commanders of the companies"

"Captain Peyton H. Colquitt afterwards became colonel of the Fony-sixth Georgia, and was killed at Chicamauga. Captain Robert A. Smith was afterwards colonel of the Fourth Georgia. He, also, was killed. Captain Hardeman survived the war, as everybody knows. He became a member of congress, and is now post master at Macon. I do not remember what became of Captain Doyall."

"Do you know anything about the surviving privates? They are scarce, you know."

"Yes, they are very scarce. State Treasurer R. V. Hardeman. Attorney General Clifford Anderson, Hon. James H. Blount, Major John Cobb, and Major Lannar Cobb, were privates in the Second Georgia. So was Judge Joel Branham, of Rome, and so were Colonel R. S. Lanier, of Macon, and his sons Sidney and Clifford. Dr. V. S. Tails ferro, of Atlanta, was surgeon. Many others have also become prominent since the war."

The Second Georgia still exists. It is commanded by Liutenant Colonel C. M. Wiley, of Macon, one of the most accomplished officers among the volunteer soldiery of Georgia, and a thoroughbred gentleman besides."

HE LIKES ALBANY.

Deputy Marshal McDonald's Opinion of Albany.

"How do you like Albany," asked a Consti-TUTION man of Deputy Marshal Newt. Mc-Donald, who accompanied Chief Deputy Mar-shal Mitchell to Albany with the mail meddler, Hall.
"How do I like it?"

"That's it."
"Well, it's a dandy place."
"Would you like to live there?"
"Don't know that I would. I've got too big

a family."
"How about Washington?"
"That's just the prettiest place I ever laid eyes on. If I didn't think Atlanta the best place in the world I would go there to live. I wish I was a congressman."
"A what?"
"A congressman or a capital policeman. Why

the police there have a better time than any body down here. While I was gazing at the large, beautiful buildings up there, I thought how soon I would be back in the old mounhow soon I would be back in the old montains of north Georgia hunting for the makers of corn juice. It is fun to be there provided you have plenty of money, but I can make a dime go further here than a dollar up there. Taking everything into consideration, I had rather live right here, and unless they send me to Albany, I expect to be here the next time you here of me."

THE ROAD SATISFIED.

Last December Mr. L. B. Henry, the agent and telegraph operator at Chattahoochee, on the Georgia Pacific railroad, was arrested for using funds belonging to the road.

Mr. Henry was imprisoned in Fulton county jail, but owned up to his short comings like a little tin soldier. He said that he had taken the money, but that he did so to keep a friend out of trouble. He claimed that his friend was working for the road, and that if he had not secured the money for him both he and not secured the money for him both he and his family would have been disgraced. After a few days young Mr. Henry was released on Since then he has sraightened up matters

with the road, and tomorrow will go back to

work.
To a Constitution man he said last night:
"God knows how much I have suffered, but at last the dark clouds are beginning to break and I think there is a brighter day just ahead."

THE COURTS ADJOURNED.

None of the Courts Transact Any Business Yesterday. Yesterday being Memorial day all the courts

adjourned over until today.

Judge R. H. Clarke, of the superior court, organized his jury yesterday morning for the weeks' work and then adjourned to pay honor to our fallen dead.
This week Judge Marshal J. Clarke will

hear motions in chambers.

This morning Judge Richard Clarke will take up the case against Scott Sowers, charged with murder. On this case Mr. James A. Gray sprung the point of jurisdiction when it was called before. It is presumed that no further trouble need be feared, and that the case will go along as though nothing had ever happened. Judge Clarke now feels that he is right, and the case, which comes up before him, will be carried through.

DELAYED AT LITTLE ROCK. Deputy Marshal Murphy and Tobe Jackson

Waterbound. It was expected that Deputy Marshal Mur-

It was expected that Deputy Marshal Murphy would reach here yesterday with Tobe Jackson.

Yesterday morning a telegram was received by Marshal Nelms from Deputy Marshal Murphy, stating that the high water at Little Rock would cause them to be delayed, and that he could not tell when they would reach home.

The water is very high at Little Rock, and Mr. Murphy may be delayed several days on this account. There is no doubt but that it is Tobe Jackson who is under arrest. Captain Murphy is personally acquainted with Jackson, and has often met and conversed with him. In Captain Murphy's telegrams he has him. In Captain Murphy's telegrams he has uot said one word about Jackson, and the in-ference is that he knows he has the right man and thinks it unnecessary to wire anything to the marshal.

THE BEST YET.

There is No Doubt About it-John Ryan Offers Bargains That Can't be Duplicated. Now or never! If you need goods, now is the time to buy them, and get them cheap. I have an array of goods which cannot be ex-celled in the city, and in many lines cannot be equalled. It is the fact that others offer what they term targains, but what I offer are bona fide bargains, and will tell for themselves. On my bargain table I have an elegant line of Oriental laces in white from our to eight not on in widthwhich are offer ed at prices that can not fail to take. They are for sale at 15 ner vard. Now is the time to

ed at prices that can not fail to take. They are for sale at 15c per yard. Now is the time to get them. Just the idea of fine oriental lace running, from four to eight inches wide being sold for 15c. It is too cheap, but I intend selling them at that price.

On another table is a lot of the same kind of goods only wider and finer, which for a day or two will be sold for 20c per yard These prices are cheaper than can be got anywhere else, and you should take advantage of them. Then too in every other department, my stock cannot be surpassed. If you wish goods of any kind remember they can be bought at my my place at about one-third the price other dealers charge for them. JOHN RYAN.

SAVANNAH, Ga., APRIL 26.—[Special.]—The game this afternoon between the Nashvilles and Savannahs equalled, if not exceeded, in excitement that of Pittsburg. The attendance was fully three thousand, and great enthusiasm prevailed. The playing of both sides was good, and the pitching of Baker for the Nashvilles excited general admiration. It resulted in a complete shat out for

The Game in Augusta.

Augusta, Ga., April 26.—[Special.]—A remarkable game of ball was played here today. In the third inning between Augusta and Chattanooga, a young hurricane came up, filling the air with clouds of dust and causing a stampede of the audience from the frail grand stand. Three thousand people were out, and the excitement at one time was rather intense. The umpire called time, and the players temporarily suspended operations, Augusta being ahead, and the blow continuing, and a slight rain following. The two clubs were ordered to play, only to find Chattanooga using-every endeavor to delay the game till the threatening rain poured, and Augusta deliberately striking out in order to hasten five innings. Two wardens and eight vestrymen were elected by the voters of St. Philip's parish yesterday morning. The meeting, during which the election took place, was held at the chapel.

The time fixed was 11 o'clock, but it was 11:30 before all the voters had assembled. Preceding the meeting a religious service was held, at which a number of ladies were present. Some of them remained in the chapel to witness the election, causing a face-

to maintain order. Quite an amount of caucusing was done before the meeting was called to order. Every-body appeared to be in a joyial mood, there being not the slightest indication of an impending war.

While the caucusing was at its height, Mr. J. T. Ormond moved that Rev. W. H. Hunt take the chair and a unanimous vote indicated that such was the will of the meeting. On motion of Dr. J. C. Olmstead, Mr. E. B. Lewer, was elected secretary and Meeting.

Jervey was elected secretary, and Messrs.
Frank Arnold and E. P. King tellers;
Mr. W. A. Hansell arose with a paper in his
hand, and asked if nominations were in or-

ler.
The chairman said that before the meeting proceeded to business he wished to make a statement. He had accepted the chair with out having any interest in the issues to be presented and determined. He would enpresented and determined. He would endeavor to discharge his duties fairly, and wanted the assistance of everybody in preserving order and harmony. He then read the law regarding the qualification of voters. It provided for two classes: First, all male communicants over twenty-one years of age who ware connected with the parish by setual were connected with the parish by actual communion for a period of three months; and second, all pewholders and holders of single seats who were over twenty-one years of age and had been connected with the parish for a period of three months.

THE CONTEST BEGINS.

captain E. S. Gay wanted the first section read by the chairman construed.

The chairman said that he would not undertake to construe the law. If anybody objected to it as he read it, the meeting could take any action it pleased. All that he would attempt to do would be to endeavor to carry out the will of the meeting. He would urgently request that there he harmony. [Angleses] quest that there be harmony. [Applause.]

The Chairman—"Your remarks are out of order, Mr. Hansell; nominations are now in

Captain E. S. Gay—"I rise to a question of privilege. It is certainly in order for the gentleman to express the motives that actuate him in presenting a list of names to be voted upon. The chairman has not the right to of fer objections."

The chairman—"The chair is perfectly willing to hear the gentleman, but not unless he is in order. The meeting can decide whether

or not he is in order."

but insists that he must be in order."

Mr. Burton Smith—"I rise to a point of order. There is nothing before the meeting, order. There is nothing before the meeting, and this entire discussion is out of order."

The Chairman—"To bring the matter before the meeting, the chajr again rules Mr. Hansell

Captain Gay—"I protest against the ruling. Mr. Hansell has rights here, and I insist that he be heard." [Applause.]

The Chairman—"The chair rules that Mr. Hansell is out of order.' Captain Gay—"Then I appeal from the bair's decision."

The chairman put the question of the appeal to the meeting. The decision ruling Mr. Hansell out of order was not sustained.

Mr. Hansell, who had remained a quiet listener to the controversy with the chairman,

arose and said: "A day or two ago I was approached by a prominent member of St. Philip's parish and asked if I had the good of the parish at heart, I answered yes. Now, as an earnest of that fact, and with a desire to see harmony restored in the parish, I make the following nominations: For senior warden, Captain John Keely; for junior warden, ex-Governor R. B. Bullock; for vestrymen, Messrs. E. S. Gay, John A. Fitten, P. H. Snook, Joseph Thompson, J. H. Ketner, Allison L. Greene, O. C. Fuller and C. T. Brockett. [Applause.]

Applause greeted the announcement.
Captain Gay said that he trusted that noth.

ing he might say would be perverted so that any man could go forth and declare that his utterances were in support of his claims for election as vestryman. He was perfectly willing that his name should be stricken from the list submitted by Mr. Hansell, in favor of any other man, that had the good of the parish. other man that had the good of the parish at heart. In support of the nominations, he would say that behind them he believed there was that which was best for the parish.
As God was his witness, he
wanted nothing but the good of the parish.
St. Philip's had passed through two trials.
He wanted now that course of action which St. Philip's had passed through two trials. He wanted now that course of action which would be tor the harmony and glory of St. Philip's. The wishes of ninety-five per cent of the people of the parish had not been complied with. Ninety-five per cent, had believed in the integrity of their friend, their rector, and they wanted the right to say now that they still believed in it. [Vociferous applause.] In carrying out what he thought to be justice, the bishop had turned a deaf ear to the appeals of the ninety and nine of the parish for mercy. He firmly believed that the election of the gentlemen proposed by Mr. Hansell would harmonize the differences existing in the parish. Applause.] If the people of the parish would unite and put their shoulders to the wheel St. Philip's would override all troubles and come forth triumpbant. If the will of the majority should not prevail he would desire nothing further.

further.
"Whatever the result of the election," he "WITH ALL ITS HALLOWED ASSOCIATIONS—
with its memories of the christening of our
babies, the confirmation of our children, the
burial of our dead—St. Philip's shall never
have my band or voice raised to harm her."
[Prolonged annlance.] [Prolonged applause.]

Ex Governor Bullock had been very quiet

during all that had occurred since the meeting was called to order.

He was silently manufacturing bombshells. When Captain Gay finished his speech the ex-governor arose and hurled into the meeting shell number one.

"My name was read by Mr. Hansell," he said, "but so far as my personal preferences are concerned, I am in favor of re-electing the present vestry. [Sensation.] But the election today is not a matter of personal preference. A body of business men has assembled to elect a board of directors. I have a resolution to offer as to the policy to be pursued by the parish. If the question of policy is settled, there need be no worry about persons. With the permission of the meeting, I will read the resolution."

The ex-governor adjusted his glasses, and read as follows:

read as follows:

"Resolved, By the people of St. Philip's, in parish meeting assembled: That the wardens and vestry to be this day elected be, and they are hereby instructed to use every proper and possible legal means to protect the rights of this parish in and as to its property, and that no diversion or division of the same shall be permitted without the consent of a parish meeting duly called for that purpose,"

On motion, the resolution was unanimously The ex-governor then hurled shell number

It was in the form of another resolution: "Resolved, By the people of St. Phillip's, in parish meeting assembled, that the wardens and vestry to be this day elected, be and they are hereby instructed 20% is sue a permanent call for a rector in this parish until such proposed call shall have been submitted to and approved by a parish meeting called for that purpose."

EFFECT OF THE BOMBSHELLS. It was moved and seconded that the resolu tion be adopted. Dr. J. C. Olmstead offered the following as

a substitute: "Resolved. That the vestry of St. Philip's church be and is hereby directed to call a rector to this parish until Dr. Armstrong is restored to duty as a priest; provided, however, that the minister accepting such call be considered as engaged for a period of at least one year from the date of his acceptance."

A motion was made and seconded that the nbstitute be adopted.
Colonel E. N. Broyles obtained the floor.

He did not think either of the resolutions wise. If the parish was unanimous in adopt-ing both, no harm would result. Bat he was satisfied that the people of the parish were not unanimous, and the resolutions would not make them so. The issues presented by the resolutions should be kept out of the meeting.

resolutions should be kept out of the meeting. Dr. Armstrong had many friends in the parish. He was one himself. He would declare, further, that if he could have Dr. Armstrong's sentence wiped out, so that he could return to his pulpit next Sunday, he would gladly do it. [Applause.] Because, while he believed that Dr. Armstong had been guilty of imprudent acts, he also believed that he was a good man. [Applause.] He even believed that if Dr. Armstrong were again in his pulpit, he would be a good pastor. But here comes the trouble; the church cannot have him for five years.

here comes the trouble; the church cannot have him for five years.

A voice—"We don't know about that."

Colonel Broyles stated the reasons why the church could not have Dr. Armstrong as pastor for the period he mentioned. He had been tried, convicted and senienced. That was an end to the matter. The bishop of Georgia, if he wished, could not change the result.

Ex-Governor Bullock-"Why not?" "Because," replied Colonel Broyles, "he would have to obtain the unanimous consent of the standing committee and the written consent of at least four bishops:"

MORE OF THE EFFECT. Colonel Broyles read from the canons to upport his assertion.
Mr. E. P. King requested him to read the

canon regarding suspensions, etc. "Now," said Colonel Broyles, "my young friend—I don't know him—means that the general I don't know him—means that the general convention could remit the sentence. He is wrong. It cannot be done until the general convention provides another mode of trial. The carrons make no provisions for appeals."

Mr. Hansell interrupted. He wanted to know if there would be any trouble to obtain the consent of four bishops.

Mr. King said that the canon read by Mr. Proples was suggestible of two constructions.

Broyles was susceptible of two constructions "We don't know whether or not the sentence may be altered.' Colonel Broyles—"That is a lazy expedient

to dodge the question. [Laughter.] As to obtaining the consent of four bishops, I don't know. I am certain that the unanimous consent of the standing committee can never be obtained. I see no probability of having Dr. Armstroug's sentence changed. If—"
Mr. Ormond—"Let us proceed with business.
I his meeting is assembled to elect vestrymen,

Ex Governor Bullock—"I want to make an apology to this meeting. My resolution was not intended to precipitate a discussion of the

Armstrong matter, I intended merely that the parish should have the right to consider so important a matter as the calling of a A general discussion ensued.
Dr. Oimstead was granted permission to withdraw his substitute. The Chairman.—"The question is now upon

the resolution of ex-Governor Bullock."

Mr. V. P. Sisson.—"I move to lay the resolution on the table." The motion was seconded.

Somebody made the point of order that cer-tain gentlemen had no right to vote.

The point was not noticed by the chairman. EX-GOVERNOR BULLOCK'S THIRD BOMBSHELL. The vote on the motion to table was taken, nd resulted ayes 38, nays 43. The vote was then taken on the resolution,

"To ascertain the sentiment of this meeting," he said, "I now move that the secretary be directed to cast the unanimous vote of those present for the present vestry."

After the meeting Ex-Governor Bullock said that the election was a triumph for Dr.

Armstrong.

Messrs. Keely, Fitten, Thompson and Fuller stated positively that they would not serve as vestrymen. They will resign.

These gentlemen gave as reasons for their intended resignations that the resolution of Ex-Governor Bullock placed the vestry in thattitude of children. It took away all inde pendence. They were men, endowed with sound discretion, and would not submit to being instructed as to what they should do o should not do. If the vestrymen were to sub

mit their actions to the approval of a parish meeting, they were in the condition of mere figure heads.

They did not mince their words in speak ing of the subject, but indignantly expressed their disapproval of the action of the meeting in adopting ex-Governor Bullock's resolution. They decirred it to be unprecedented in the history of the church.

the history of the church.

Since they positively will not serve, St.

four vestrymen to take their places.
